229

Jefferson's Second Term.

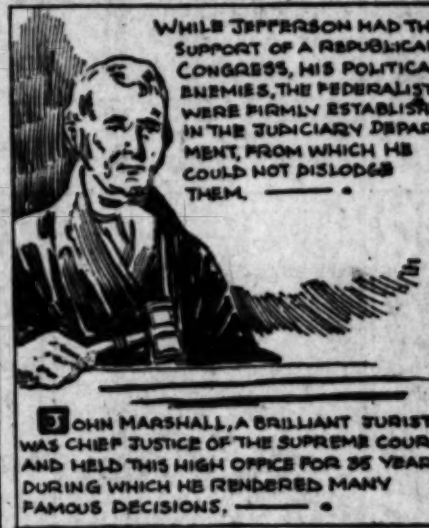

by J. CARROLL MANSFIELD

THOMAS JEFFERSON WAS ELECTED UNDER THE SYSTEM OF ELECTING PRESIDENT BY THE ELECTORS.

THE LOUISIANA PURCHASE, THE UNITED STATES CLAIMED TO WEST FLORIDA, STILL OCCUPIED BY THE SPANISH.

JOHN MARSHALL, A BRILLIANT JURIST, WAS CHIEF JUSTICE OF THE SUPREME COURT.

UNDER JEFFERSON'S POLICY OF INDUSTRY AND PEACE, OUR COMMERCE INCREASED RAPIDLY AND THE NATION ENJOYED GENERAL PROSPERITY.

IMMIGRANT TIDE VEERS TO SOUTH

Many European Aliens Seek Homes in Mexico

Back-Door Entry to America Rapidly Forgotten

South of Border Attracts Farmer Settlers

BY LEE SHIPP

TAMPA, Fla., Oct. 11.—Immigration into Mexico is increasing steadily, and this year more than 100,000 immigrants will enter the country, according to Mexican immigration officials.

For nearly two years the increase has been noticeable, but at first many of the immigrants from Europe came here merely because of the immigration restrictions in the United States.

Planning later to cross the border into the latter country, but the abundance of opportunities in this country have attracted many of those who came from Central Europe, and the reports they sent home have resulted in a steady increase in the number of bona fide home-seekers eager to take up life here in agricultural colonies.

A considerable number of German immigrants also is reported to be entering Mexico on the coast. Hereafter the Japanese have never formed an important factor in Mexican life, but now many are looking to Mexico as a field of agricultural opportunity.

In all the principal cities there are Chinese chambers of commerce, but nowhere are there enough Japanese to form similar organizations.

While the locust pest has been worrying farmers in some parts of Mexico, every man who takes a drink in the State of Tamaulipas is told that the locusts are not a threat to his life.

The Governor of that State has issued a decree putting a special tax on all drinks and smokers, and he has now put a drink or a smoke without first showing his license. The money collected in this way is used to fight the locusts.

Farmers in the States of Coahuila and Durango are said to have requested the federal government to establish a special tax applying to the whole country to produce a fund to fight this pest, but that idea is opposed in other States on the ground that only a comparatively small part of the republic is affected by the locusts, and in them the pest is not so serious.

In the meantime, the Governor of Tamaulipas is said to be getting results.

NEW MINE DISTRICT

An important new mining district, containing lead, silver and copper in large quantities, is being developed near Villa Ahumada in the State of Chihuahua.

Reports are being received from the Villa Ahumada district that 1200 tons of ore daily is being handled there, and the opening of several other important mining ventures waits only on the arrival of machinery and supplies.

On a great deal of the machinery shipping Mexico the duties have been lifted under the administration's policy of encouraging development.

This is especially true of the machinery and already has had such effect that a group of industrial manufacturers, especially from the American mills, are planning to set up a plant in the new district.

Other foreign agricultural colonies, all of whom desire American farming implements.

The textile industry is keeping pace with agriculture in the new forward movement. During the last year 150 textile mills were operating in this republic, representing an investment of 77,000,000 pesos.

Of these establishments, 100 were in the textile industry, and 50 were in the cotton industry.

Investment of 44,000,000 pesos, were in the Northern States closest to the American market, 7,000,000 pesos were invested in textile mills in the Gulf Coast States, 20,000,000 pesos in the Central States and a little more than 8,000,000 pesos in the Pacific Coast States.

Rolling Home

Right from where you are, to where you want to go—in a ready-to-enter Yellow Cab-day or night.

No hanging around a parking station while other cars are switched and bumped around to discover yours.

The "Hit" of the Season.

Industrial Exhibit to be Featured by Choosing of Most Popular Girls

A feature of the Hollywood industrial show, the 19th to the 25th inst., under the auspices of Hollywood Camp, No. 33, United Spanish War Veterans, will be the selection of a queen. The three girls adjudged most popular will receive a diamond ring, a gold wrist watch and a ladies' ring.

At Hollywood Boulevard and Olympic avenues, a tent is being erected to house the exhibits of new fall goods by Hollywood business men and provide the arena for the program of entertainment.

Colored lighting effects to feature the show are being arranged by Harry M. Brown.

A novelty musical program by the Klitzie Pipe Band, of which William Mathieson is conductor, will be an opening night feature. Entertainment will include monkey bicycle races and other animal acts, aerial trapeze stunts and a number of specialties from circus attractions.

The exposition, which is being conducted under the supervision of Capt. L. L. McClary of the Los Angeles police department, commander of Hollywood Camp, is to obtain funds for a permanent home of the order in Hollywood. Peter F. Roller is chairman of the building committee, which includes Dr. J. M. Kiley, Frank W. Jans, Frank Schroeder, Adrian Curet and Milton Hunt Withers.

SEISMOLOGICAL HUNT

RECENTLY, on Oct. 11, an earthquake of magnitude 2.5 was felt along the coast between the mountains of the Coast Range and the Coast Range.

SIGNS POINT TO GOOD BUSINESS

Trade Growth Indications Present During Week

Heavy Shipments of Gold Coming From London

Rail Operations Report Heavy Gains

BY J. P. HENRY

NEW YORK, Oct. 11.—All the familiar signs of trade expansion were present last week, giving definite indications of a sound and healthy state of business.

In many instances the progress of commercial activity was slow, but there was a distinct quickening of retail trade that carried over into the wholesale trade in manufacturing lines.

Resumption of the gold movement from London to New York was the most interesting development of the week from the viewpoint of international trade.

Shipments of 14,000,000 more are now on their way to swell the enormous stocks of the metal already held in the United States.

The movement becomes considerably larger, it is expected to have little effect on credit conditions here, but bankers would not be surprised if the loss of gold caused a stiffening of London money rates which would eventually counteract the reduction in the Bank of England's discount rate.

RAILWAY REPORT GOOD

Reports of railway operations were favorable. Not since the Transportation Act became operative five years ago have August reports for the United States been so impressive. The total of almost 125,000,000 tons was equivalent to more than 8 per cent surplus over the combined tonnage of the railroads—the first month this year that the "fat" return of 5-6 per cent has been secured.

Continuation of the freight movement at a high level was indicated in the announcement that carloadings for the tentative week ended September 28 numbered 1,150,643, a figure exceeded only once before this year.

A marked gain in the movement of general merchandise offset the smaller loadings of grain and coal.

Steel operations expanded to about 30 per cent of capacity for the entire industry with steady growth reported in the volume of inquiries for various steel products.

Seventy-five rail orders were placed and more are in sight. Buying of structural steel was active and automobile manufacturers have found it necessary to keep in the market.

FIRST GAIN IN MONTHS

An increase in unfilled orders at the end of September which amounted to 264,494 tons was the first gain since early in the year and was a heartening proof of upward trend of the business.

A parallel was found in the monthly report of pig-iron production. This showed a gain of 17 per cent over September a year ago and an increase of 4 per cent in average daily output during the month.

Scattering irregularities persisted in the business situation, but none of them could be characterized as serious. Continued cotton goods markets were badly upset by the sharp break in cotton prices, which followed another upward revision in the government's crop estimate. Continued improvement was reported in other textile lines.

Bank clearings of the leading cities, as reported by Dun's Review, last week totaled \$2,740,000, a gain of 7 per cent over the preceding week and almost 20 per cent over the corresponding period last year.

Rehabilitation Board to Meet Federal Agent

Executive officials of the Division of Rehabilitation, State Board of Education, will hold a conference here Friday and Saturday with Frank R. Clayton, Federal agent in charge of the Los Angeles office.

Among subjects to be discussed at the conference will be the overhauling of cases which the California Rehabilitation Division is one of the two ranking State organizations of its kind in the nation, according to Supervisor Hickey.

Half of the funds used for rehabilitation work here are appropriated by the Federal government and are spent by the State workers under the supervision of Federal Supervisors. The other half is provided by the State.

RECOVER BODY OF MAIL FLYER

Searchers Find Wrecked Plane on Hill

Fallen Trees Screamed Spot for Ten Days

Belief Expressed Pilot Was Instantly Killed

(Continued from First Page)

The plane was completely wrecked, but the 135 pounds of mail containing thirteen pouches, was undamaged and was forwarded to Chicago late today. The mail was of no exceptional value, according to postoffice officials.

DEAD FLYER TO BE BURIED IN MICHIGAN

Charles Hayden Ames, 31 years of age, air-mail pilot, formerly of Los Angeles, will be said to rest at Jackson, Mich., the place of his birth, according to a statement issued here yesterday by his father, C. C. Ames, an investment broker of 330 Madison Hill.

His body will be taken to Jackson, where he was born on February 2, 1893, by a brother, Paul R. Ames, of the United States Patent Office at Washington.

The brother went to Pennsylvania immediately upon the receipt of word that the air-mail pilot had disappeared.

The father received news of the death of his son from Paul Ames following which he immediately made arrangements for the funeral. The funeral, he said, will be in Jackson, Mich., and will be at the family plot in the Evergreen Cemetery at Jackson.

The aviator leaves, besides his mother, father and brother, two sisters, Frank J. Taylor of Los Angeles, and Mrs. C. E. Blakemore of Corvallis.

It is probable Mr. and Mrs. Ames will not go to Jackson to attend the funeral.

"We did everything we could for him," Mr. Ames said yesterday. "It has been a hard ten days waiting for news of the trip and we mean only more sadness."

A hope for him up to the last moment, although it was very doubtful during the last few days, was that he would be able to find assistance at some farm-house.

It was getting to a point where it did not look like he would ever be located. My only wish is that he would be found. His name, which was broken in a forcing landing two years ago might have prevented him from leaving the country.

"I know that everything possible was done in the East to locate him and that his brother aviators exerted every effort to find him."

Charles was brought to California by his parents when he was 13 years of age. The family was settled at Redlands. Later the family moved to Los Angeles and Charles was educated in the public schools of this city. He graduated from the Polytechnic High School in 1913.

After his graduation he returned to Redlands where he worked for a time as a bookkeeper at the Redlands National Bank. He then went to Los Angeles and worked for the Edison Company on the Kern county project.

He remained with the Edison Company until the outbreak of the World War when he enlisted in the aviation corps at San Diego and was sent to the United States Army Air Corps at Mather Field near Sacramento.

Completing the course at Mather Field he was sent to Texas where he served as an instructor at Brooks and Kelly fields. When the armistice was signed he joined the transport service making several trips to France to bring back soldiers.

In 1920 he joined the United States Army Air Corps and was sent to Cleveland. Two years ago his leg was broken at the knee in a forced landing and he came to Los Angeles to recuperate, remaining with his parents for a year. He was not married.

RALLY FLAG TO FLY

Trojan Emblem Will be Lowered at Stanford Wins

The University of Southern California rally flag will make its first appearance on Friday morning when a six-pointed Trojan flag with a large Trojan head of gold on a cardinal background will fly from the tower of the old building.

A symbol of the Trojan spirit, the emblem is also to fly as a sign of victory should the U.S.C. team be victorious in the Stanford-Southern California game Saturday afternoon. In case of defeat on the gridiron the rally flag will be lowered.

From next Friday on this flag will be raised before each Southern California rally, according to Carl Welch, a member of the rally committee of the University of Southern California.

FRENCH WIN OBJECTIVE FROM RIFFS

Cavalry Brigade Occupies Frontier Town in Last Major Operation of Year

BY HENRI-ROBERTO REYHER

FEB. 11.—The last major operation contemplated this year was completed when a brigade of French cavalry, advancing from a watershed ten miles down the Taghlabet River, occupied the final objective at Althou Rekha, establishing a position with the eastern front. Infantry and artillery followed, moving along the ridges on either side of the Taghlabet, preparing solidly to occupy the country.

Rekha, which is on the frontier of the mountain fastnesses of the Rif, is only fifteen miles south-west of Aslu De Midjer, terminus of the Spanish railway from Melilla. It is probable the French will get much of their supplies on this railroad for they are now far away from their base.

As they cannot rely entirely on the railroad, they already are using a large proportion of troops in this sector to build roads through a twenty-five-mile trackless wilderness to North Kina.

The new winter line was completed without difficulty for the tribes no longer are resisting and the Rifians themselves are retiring to their camps.

The French have been successful in their operations, and the balance of the year will be a matter of consolidation.

TURKS PLAN TO BE ENGINEERS

Government Sends Youths to College

Prime Minister's Brother Now Freshman

Faculty Members Survey for Light Plant

CONSTANTINOPLE, Oct. 11.—The Turkish government has entered twenty-five students in Robert College, Constantinople, to study engineering at the expense of the government. This is the first time that the Turkish government has defrayed the expenses of students at either of the American colleges in Constantinople, and is in line with the policy of the Young Turks to modernize their country.

Imet Pasha, Prime Minister of Turkey, is a strong supporter of Robert College, and has placed his younger brother in the college as a freshman. He was graduated from the preparatory school in June.

These twenty-five student engineers, when trained, will set about installing sewage systems, water and electric lighting systems and other modern conveniences in towns in the interior of Turkey. During recent years the engineering staff of Robert College has served as a consulting bureau without fee. Last year two professors from the engineering school made a survey and submitted estimates for providing electric lighting, water supply, paving the streets and disposing of sewage in the town of Adah Bazar at the request of the Mayor. They were in the Province as the guests of the largest

HIGH BLOOD PRESSURE

Stomach and Liver Trouble
Cause Well Known Automobile Distributor to Be Rejected
by Four Old Line Insurance Companies

Coso Volcanic Iron Water and Medicinal Mud Baths

Restore Health and Make Life Insurance Now Possible

MR. H. P. BEATTY

For many years I suffered with Stomach Trouble and inactive Liver and Kidneys to such an extent that my blood pressure became extremely high and some time ago when I applied for insurance I was rejected by four different companies. Friends of mine who had suffered in the same way and had been relieved with Coso Water and the Volcanic Mud Baths recommended same and after using three cases of water and taking the mud baths for a little over two months my blood pressure was reduced to normal and I have been entirely relieved of indigestion and torpid liver. I felt so improved that I recently made the second application with the Northwestern Mutual Life Insurance Company, the same company which had formerly rejected me, and was accepted by them as a good risk. Coso Water is certainly a remarkable remedy for acid stomach, indigestion and liver trouble, but I attribute much

of the elimination which I received to the Mud Baths, which made me feel like a new man almost from the beginning. Taking the treatment did not interfere with my accustomed duties, as the mineral water and mud baths were used in the privacy of my own home. I cannot say too much for this product and will gladly give any information to those who may be personally interested.

(Signed) H. P. BEATTY,
Bishop, California.

Full course of Water and Mud, \$26.00. Single bottles of water, \$1.25; case of 18 bottles, \$18.00, or a saving of \$6.00. Single jars mud, \$2.00, or case of four jars, \$10.00, a saving of \$2.00. SQUEALING RATS WARN OF FIRE

Rodents Probably Save Texas Town From Destruction

(EXCLUSIVE DISPATCH)
SOUTH PLEASANTON (Tex.) Oct. 11.—Squealing rats probably saved South Pleasanton from destruction by fire.

An aged Mexican woman was roused from sleep at 2 a.m. by the squealing rodents caught in a trap she had set the night before. She discovered flames which destroyed three business buildings and threatened the whole town. The loss was estimated at \$12,500, none of it covered by insurance.

E. H. Armstrong, a drug clerk, was injured while escaping from his blazing apartment. He fell from the second floor and was badly bruised.

factory owner in Turkey, who had invited them to investigate his factory and submit recommendations for increasing its operating efficiency.

Imet Pasha, speaking on the attitude of the Young Turks toward Constantinople Woman's College and Robert College, said: "We esteem very highly the work that American colleges at Constantinople are doing. The fact that they have carried on without interruption or trouble during the war and the conditions following the Armistice is evidence of their prestige among the people of the Near East. They have conformed to our new school regulations. We want the assistance which they can give us."

As a practical demonstration of this regard the Turkish government requested President Caleb F. Gates to admit twenty-five students in the engineering school at the expense of the Turkish government this year. Enrollment at the college is the highest in its history, more than 700 students having registered. The highest previous registration was 550.

FLYER ATTEMPTS TO WALK PAST MIRAGE

(EXCLUSIVE DISPATCH)
WINSLOW (Ariz.) Oct. 11.—

Lt. A. G. Stevens, aviator, has achieved a new distinction, that of being the first man who ever attempted to walk around a desert mirage. After landing on a flat near Winslow, he refused to ride into town. Indicating a mirage in the near distance, he said: "I've been cooped up in the seat of the plane for several hours and I'm cramped. I'll take a little run around that lake and then into town. It can't be more than five or six miles." Townspeople followed in an automobile, but several miles had been covered before the flyer appreciated that the lake was one that retreated as he advanced.

SPOONERS AID POLICE IN CAPTURE

Bring Assistance When Chauffeur Is Held Up by Bandit Pair

NEW YORK, Oct. 11.—A spooning couple saved a taxicab chauffeur's life and brought about the arrest of two youthful asserted highwaymen at 2 a.m. in Brooklyn. Two youths hired a taxicab driven by John Sorenson, and ordered him to drive to Borough Hall. They watched until they came to a spot where the street light had gone out and called to the chauffeur to stop.

When the passengers got out one pointed a German pistol and ordered Sorenson to get down from his seat. When he did so, he was ordered to hand over his money. The proceeding had been witnessed by a couple in an automobile parked near-by in the shadow of the "L" structure. They drove to the nearest police station, four blocks away, and returned with Policeman Purcell. Meanwhile the bandits, angered at the chauffeur's reluctance to hand over his money, had struck him on the head with the butt of the gun, but had been frightened away by a passing trolley. Sorenson was revived by the policeman and drove the taxi in pursuit of the chase in which Purcell fired several shots. Two youths were caught a block from the police station. They described themselves as being in their late 18 years of age, and Frank Valona, 17. Police say Sorenson identified them. The bloodstained gun was found in the street.

'Lucky Two' May Return Plunder if Not Salable

NEW YORK, Oct. 11.—The "Lucky Two" are a couple of game crooks. They are willing to make restitution if Lady Luck is not with them and they fail to live up to their name.

This was indicated by a note they left in the office of the firm of Pierre Secor, of Broadway, after having made off with forty packages containing extras, favorings, colors and dyes valued at \$2500.

This is the note, written on wrapping paper, which they left behind:

"THE LUCKY TWO."

SMUGGLING AGENT AND ALIENS AWAIT HEARING

FOUR FOREIGNERS ALLEGED TO HAVE PAID \$1000 TO ENTER STATES

(EXCLUSIVE DISPATCH)
SAN ANTONIO (Tex.) Oct. 11.

Carefully laid plans of a smuggling agent and four aliens were dashed upon the rocks and the quartet languished in the Del Rio (Tex.) jail awaiting preliminary hearing before the United States commissioner there on charges of violating the passport law, according to report made to Capt. W. M. Hudson, local district director of immigration, on his return from Del Rio and Eagle Pass, Tex.

In a statement made by the four aliens, two men and two women, it developed that they had paid \$1000 in cash to a smuggling agent who was to direct their secret passage across the Rio Grande River and into the interior of Texas, according to Hudson.

The agent eventually was supposed to deliver them at some point in the northern part of the United States, but he reached only as far as Rock Springs, Tex. For several days after crossing the Rio Grande the quartet was secreted in a small shack in a wooded section about fifteen miles from Rock Springs. After they had been hiding there four or five days, a man finally saw one of them and reported to officers. The arrests followed.

MISSOURI PACIFIC MAY PURCHASE OLD LINE

RIO GRANDE ROUTE BUILT BY SPANIARDS BACK IN 1804

(EXCLUSIVE DISPATCH)
BROWNVILLE (Tex.) Oct. 11.

Negotiations for the purchase of the Rio Grande Railroad by the Missouri Pacific are pending and will be concluded soon, according to W. L. Baldwin of St. Louis, president of the Missouri Pacific, who is here attending the Interstate Commerce Commission hearing on the application of the Southern Pacific to extend its San Antonio and Aransas Pass line from Palfurrias to Hidalgo.

The Rio Grande Railroad is owned by W. T. Eldridge of Sugarland, Tex. It is one of the oldest railroads in the United States, its construction being started in 1844 and finished in 1863. It runs from between Brownsville and the old deep-water port of Point Isabel, twenty-two miles.

It was built and owned for many years by a syndicate of Spaniards and all of its original equipment including engines of primitive type, passenger cars and small freight cars, came from Spain. All of the early records of the company were kept in Spanish. The line was converted from narrow to broad gauge a few months ago.

AGED MAN STANDS ON HEAD TO KEEP HEALTH

(BY CARL—EXCLUSIVE DISPATCH)
BELL PAST, Oct. 10.—Perhaps you don't remember Anthony McKinley, but in the days of long ago he was the weight-lifting champion of the world. Mr. McKinley, who is now 83 years of age, walks twenty miles every day to keep in trim, and stands on his head as a McKinley exercise regime means of circulating the blood for longevity.

Regular Price

DOG FIGHTS FOR PORKER PAIS
Trio to Prevent Load From Being Weighed and Sent Away
(SPECIALS DISPATCH)
DENVER, Oct. 11.—Fighting viciously for his porcine pals, a half-starved dog which arrived at the Denver Union stockyards with a load of hogs caused much trouble and delay to workers.
Taking his position in the midst of the hogs, the mongrel foiled attempt after attempt to weigh the load and start it to the packing-house. Several times he was beaten off, only to force his way back to his friends.
Finally, seeming to realize he could do no more, the emaciated guardian watched the fated procession as it made its way up the long incline and disappeared into the packing-house.
The car was shipped from Cottler, Wyo.

ONE KILLED DURING RIOT IN PANAMA
Score or More Wounded as Police Disperse Mob Demanding Lower Rents
(SPECIALS DISPATCH)
PANAMA (C. S.), Oct. 11.—One person was killed and a score or more wounded late last night during a bitter riot along Panama's historic Santa Ana Plaza, when the national police and the poorer class of householders clashed following evening meetings of the latter, demanding a reduction of heavy rents.
The Provincial Governor had decreed no meetings be held, but early in the evening a mob of 500 gathered and were harangued by a leader from a bandstand, who appealed to the laborers and others to cease paying rent until reductions were made.
Gov. Boyd, Mayor Gallardo and Chief of Police Arango appealed to the mobs to disperse, but the speaker continued. A platoon of police mounted the stand, firing their rifles in the air. In clearing the stand, the police were forced to use their revolvers, killing one of the mob, and wounding many others. Two other men are dying, including Panama's port captain, Carlos Diego. Armed police tonight are guarding the main streets, but all is quiet. Later the mob attempted to hold a meeting at Chorrera, on the Canal Zone border, where the canal police gathered and dispersed them.

FRENCH ATHLETE IN LONG SWIM FOR AID
(BY CABLE—SPECIALS DISPATCH)
PARIS, Oct. 10.—Andre Riere, member of the French rugby champion team, swam three miles to get aid when the pleasure boat in which he and a party of friends were returning from a dance capsized in a gale off Port Vendre, near the French-Spanish border on the Mediterranean. Seven persons in the party were drowned. Riere battled his way to the shore and succeeded in having a lifeboat sent to the stricken vessel.

CALIFORNIA GRAPES MOVING EASTWARD
(SPECIALS DISPATCH)
WINNLOW (Ariz.), Oct. 11.—Santa Fe train crews on the Winnlow division hardly have time for rest in the demands made upon them for moving eastward shipments of California grapes. Over 500 carloads a day are loaded here, while on one day 843 were handled. Something more than half the crop rush is said to have passed. Live-stock shipments westward are adding to a congestion that at times is holding up passenger traffic.

GAME COMMISSIONER PLANS NEW PRESERVE
(SPECIALS DISPATCH)
SAN ANTONIO (Tex.), Oct. 11.—Turner W. Hubby, State game, fish and oyster commissioner, came here to complete arrangements with Col. Ike T. Pryor for the creation of a game preserve on 76,000 acres belonging to Col. Pryor in Zavala county. The new preserve will be stocked with deer, turkey and quail, and the over-fow from the preserve is expected to stock the surrounding country within two years, Hubby said. It may, however, require a longer time to stock the country with quail, as quail have only about one good breeding season in four.

LOCAL VETERINARIAN TO AID TEXAS FIGHT
(SPECIALS DISPATCH)
AUSTIN (Tex.), Oct. 11.—California is lending aid to Texas in fight to eliminate the hoof-and-mouth disease in the southern part of this State, the Governor and Director of Agriculture of California, having detailed an experienced veterinarian to help Texas. He is Dr. E. M. Keef of Los Angeles, senior field veterinarian supervising the division of animal husbandry for the California Department of Agriculture.

INVESTIGATES KLUG DEATH
(SPECIALS DISPATCH)
POPULAR (Mont.) Oct. 11.—Edmond Klug of Wisconsin Rapids, Wis., a brother of Harry Klug, who was killed here several weeks ago, has arrived and will spend some time in this section, inquiring into the tragedy. Klug was thrown from a train on which a carnival company was believed to have been traveling. His body was found in a ditch some hours later. Klug is believed to have come from Spokane with this carnival and earlier he lived in Los Angeles.

Now, you can OWN YOUR OWN OFFICE and save rent. Easy buying terms. G. E. 9211.—(Advertisement)

The Triumphant Studebaker

One-Profit Value, Unit-Built Construction and "No-Yearly-Models" have made Studebaker Big Six the fastest selling high powered car in the world today

BECAUSE Studebaker offers three distinct advantages... price, quality and protected investment... true of no comparable car on the market, the Studebaker Big Six is out-selling every other car in the world of equal or greater horsepower, according to the rating of the Society of Automotive Engineers and the National Automobile Chamber of Commerce.

Only two plants in the world today... (Studebaker alone in the quality field)... have the impressive facilities for making all their own bodies, engines, clutches, differentials, steering gears, springs, gear sets, gray iron castings and drop forgings.

One-Profit Value

Because of its unique manufacturing facilities, Studebaker eliminates profits which all other quality car manufacturers must pay to outside parts or body makers. Savings effected in this way run to hundreds of dollars on some models. Thus Studebaker is able to use finest steels, finest woods, finest wool upholstery, finest engineering and superlative workmanship

in its cars; then to add costly extras... and still charge no more than competing cars.

Unit-Built Construction

One-Profit facilities result, too, in Unit-Built construction. In cars designed and built as units. The hundreds of parts used in a Studebaker car are Studebaker. They function together as a unit, resulting in longer life, greater riding comfort and higher resale value for you. Scores of thousands of miles of excess transportation thus are built into Studebaker cars. More than one hundred thousand miles of service is not uncommon.

And "No-Yearly-Models"

As a natural outgrowth of those two factors, a third great advantage to the buyer is attained... "No-Yearly-Models." Because all phases of manufacture are directly under Studebaker control, Studebaker cars are constantly kept up to date, improvements continually made. We do not save them up for spectacular announcements which makes cars artificially obsolete. Resale values are thus stabilized.

Because of these three advantages—One-Profit Value, Unit-Built Construction and No-Yearly-Models—the Studebaker Big Six has become the world's fastest-selling high-powered car.

Why demand exceeds factory capacity—for this Big Six Sedan

The 5-Passenger Big Six Sedan is proved with the identical engine that drives hundreds of Studebaker buses at high speed hour after hour over hills and valleys—lends a car of swift pick-up and steady performance. It is luxuriously comfortable, beautifully finished, elaborately equipped.

Based on the rating of the National Automobile Chamber of Commerce and the Society of Automotive Engineers, only seven American cars equal this Big Six Sedan in power. But they sell for two to four times as much, as shown by the following table:

STUDEBAKER BIG SIX
N.A.C.C. and S.A.E. rating—36.04
Price of 5-Passenger Sedan,
L.A. factory, \$1995

15% more power, \$2755 higher price
15% more power, \$2905 higher price
15% more power, \$4905 higher price
15% more power, \$5605 higher price
15% more power, \$7680 higher price
15% more power, \$4725 higher price
15% more power, \$8055 higher price

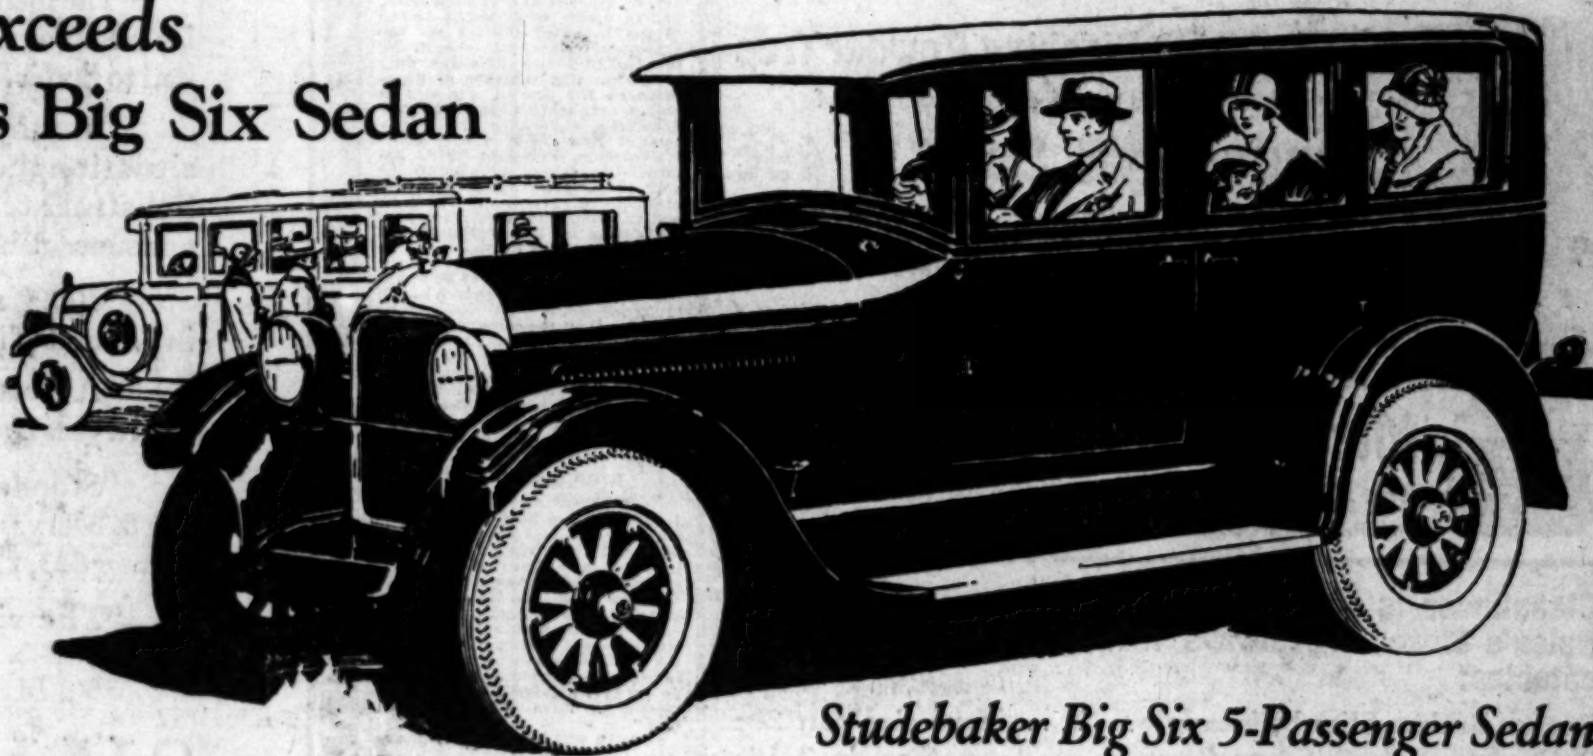

The chassis and engine are especially designed for the Studebaker-built body. Full-size balloon tires and snubbers add to its ease of riding.

It is richly upholstered in genuine mohair, which is indicative of the fine quality body construction you cannot see. Body pillars are of northern white ash—cross-members of hard maple.

It has an automatic spark control, safety lighting switch on the steering wheel, gasoline gauge on the dash. There's also an 8-day clock, automatic windshield cleaner, cow ventilator, stop light, inspection light on 10-foot cord, and a splendid coincidental lock to ignition and steering wheel operated by the key that locks the door and the spare tire.

Open the doors and look within. The hand-grained dash with instruments on a silver-face dial under glass; the panels of walnut inlaid with holly; the rich mohair upholstery; the heavy ornamental hardware, butler silver finish—all these fairly sing "quality." Slam the doors and the sound echoes the same keynote—"quality."

Then ride in it, feel the surge of power from the smooth silent engine and you will know why the Big Six outsells all other cars of equal or higher rated horsepower.

Studebaker Big Six 5-Passenger Sedan
\$2325 Delivered for Cash in Los Angeles

Or, under Studebaker's fair and liberal Budget Payment Plan, this Sedan may be purchased out of **\$792** Down monthly income with an initial payment of only

MODERN YOUTH
MERITS PRAISEMissionary Meeting Speaker
Lauds Young People"Eminently Fit to Cope With
Problems of World"National Convention Hears
Interesting ProgramBy a "Times" Staff Correspondent
PASADENA, Oct. 11.—The
youth of today is stronger in every
way than ever before in the
history of America, and is emi-
nently fit to serve humanity and to

cope with the problems of the future, declared Dr. Merie N. Smith, pastor of the First Methodist Church of Pasadena, as he today delivered the annual missionary address at the convention of the Women's Home Missionary Society of the Methodist Episcopal Church, in session here this week.

Dr. Smith, who spoke in the absence of Bishop Wesley Burps of San Francisco, chose as his text, "I pray not that Thou shouldst take them out of the world," and declared that the youths of the country recognize the defects of the world, and are fit champions to carry on the work of practical Christianity in the years to come.

PLEADS LAW OBSERVANCE
The speaker made an urgent plea for the proper observance of prohibition and respect for law, asserting that he disapproved the theory that the church should refrain from political or economic discussions, appealing for a sincere and thoughtful effort on the

part of all Christians in helping to combat the evils in the world. Youth, some 1600 strong, was further represented in the convention when the impressive pageant, "The Triumph of Peace," written by Mrs. Annie Hobbs Woodcock, and dedicated to Mrs. George O. Robinson, was presented by the Junior department of the society at Library Park, Pasadena, this afternoon.

The pageant depicted the attainment of world peace through the education of children. The actors in the ceremony included children of the Pasadena and Los Angeles Methodist churches, Boy Scouts, Mexican and Japanese children and many from the La Verne orphanage and the Jane Crouch School. A parade formed at the First Methodist Church and proceeded through the streets to Library Park, where the pageant was enacted.

IMMIGRANTS TESTIFY
Mrs. William B. Oliver, secretary of the organization's immigrant work, was the main speaker of this evening's session, telling the delegates of her work with Slavonic girls in the McCrum Training School at Ulenstown, Pa., one of the society's numerous enterprises of this type. She described the methods used in the Americanization of the immigrant girls, following which several of the girls themselves, brought here for the convention, told the story of their reactions to the schooling they have received, and expressed their appreciation of the help they have received from the missionary society.

The final election of all national vice-presidents and managers of the society, about twenty in number, will occur tomorrow morning. Their election was postponed from last Saturday because of an amendment to the by-laws passed that day which prohibited the holding of both a national and conference office by an individual member, and which affects many of the vice-presidents and managers now in office.

Reports of the activities of the society in various parts of the country will occupy the rest of tomorrow's business sessions. One of the most interesting branches of the society's missionary endeavors, the settlement of schools in Alaska, will be reported at this time.

**SUITS LOOM IN RAIDS
ON CAFES BY CITIZENS**

(BY A. P. MURPHY WIRE)
WEED (Cal.) Oct. 11.—A grand jury investigation and possible damage suits loomed today as the result of several hundred dollars' worth of damage to property by a group of angry citizens who staged a raid here last Thursday night on the rest of the city, having been openly violating the Volstead Act. The attack by the men followed a Federal raid, and nine arrests affecting four resorts. The unofficial raiders called themselves a "citizens' committee."

His Condition
"Ahl, Back from your vacation, old man!"
"Physically, dear boy—but not financially."—(Boston Transcript.)

HERETIC BISHOP
STIRS TURMOILProscribed Episcopal Priest
Partakes of SacramentIn Later Sermon Ridicules
Tenets of TheologiansChurch Officials May Depose
Offender Today

(REUTERS DISPATCH)
NEW ORLEANS, Oct. 11.—Two quotations tell the story of this, the most sensational day in the history of the Protestant Episcopal church of the United States, and that history covers nearly 140 years.

In the morning Bishop William Montgomery Brown, whom bishops of the church have thrice proscribed for guilty of heresy, but whom they have not yet deposed, approached the holy table in St. Paul's Church, New Orleans, at the hour of early communion and heard the word spoken to the faithful by Bishop Cheshire of North Carolina, who was the celebrant.

"Ye who do truly and earnestly repent you of your sins and are in love and charity with your neighbors, and intend to lead a new life, following the commandments of God, and walking in the holiness of his holy ways, draw near with faith, and take this holy sacrament to your comfort and make your humble confession to almighty God, devoutly kneeling."

The solemn invitation to participate in the most solemn office of the church the heretic bishop accepted and partook of the sacrament in both kinds.

In the afternoon, preaching at Labor Temple here to an assembly representing denominations ranging from the Episcopal to Catholics to Unitarians, Bishop Brown said this:

KNOWS NO GOD
"My difficulty with the conscious personal gods of the supernaturalistic interpretations of religion—say, Jesus, Jehovah, Allah, Buddha—is that we do not know anything any one of them has done, is doing, or will do. This is as true of the Christian God as the rest."

And this: "What the correct notion about God?"

"Scientists do not know, and they will never admit it."

"Theologians do not know, but they will not admit it."

"I believe in Christ, who is the light of the world, but I will not lose myself in despairing efforts of biblical scholars to reconstruct the biography of Jesus of Nazareth, and the most assuredly, I will not hear that God demanded a blood sacrifice. My fellow-bishops do not believe in any such principle, either."

The blazing contrast between the words which brought Bishop Brown to his knees before the altar in the morning and the words that fell from his lips in the afternoon moves churchmen to scandalized comment.

CRY SACRILEGE
High-churchmen feel that the most sacred sacrament of the church has been profaned, and outraged by one whom they regard as either very daring or very insane.

The most Rev. Ethelbert Talbot, 84 years of age, of Bethlehem, Pa., to whom a presiding bishop of the house of bishops of the Protestant Episcopal church of the United States falls the duty of pronouncing sentence of deposition on the heretic, was still in conference tonight with George Zabriskie, chancellor of the diocese of New York, and George Wickersham, President Taft's Attorney-General, as to whether he may properly go ahead with the ceremony of deposition which he had announced for tomorrow.

Entering St. Paul's Church this morning Bishop Brown took his place next to Dr. C. B. Wilmer, professor of theology at Sewanee University, the great church school in Tennessee.

Throughout the ceremony Bishop Brown was a good deal more composed than some of the dignitaries near him. Without a tremor, too, he extended his hands for the partake of consecrated bread and he reverently passed it to his lips.

A few hours later at the Labor Temple, he said:

RIDICULES TENETS
"The charge against me is that I have come to hold views on certain matters which are not in literal agreement with the one true doctrine of Christianity as set forth several times ago by a famous concave of eminent divines, chiefly bishops, who thought that the earth was flat with a roof over it, which leaked when it rained, and the typhoid, smallpox and tuberculosis were punishments sent upon us because a talking snake in the Garden of Eden had outwitted God."

"I have pleaded guilty from the start to holding and publishing views which are at variance with literal findings of those ancient theological councils," he continued. "I do not deliberately differ from them. I say they bind us not in modern times that they have no right to bind us. The theological mind is isolated from modern life or modern scholarship."

The important announcement he made tonight that a committee, headed by Bishop Brent of Western New York and including Bishop Talbot and Bishop Long and the Rev. Dr. Van Allen, Wilmer, Clark and Montague, will recommend to this convention that the Protestant Episcopal church join the Federal Council of Churches of Christ in America, provided that the proposal can be carried by a two-thirds vote.

At the last triennial, it was lost by one-half of one vote.

NOT HIS NAME
A story is going the rounds of the Federal Building concerning one of Columbus' corpulent attorneys.

The attorney is a large man, with an exceptionally deep bass voice. He was sitting in his office the other day, the observer was told, when the telephone rang.

"Is this Flagg-Wiggly?" queried a dainty feminine voice at the other end of the wire.
"Now, lady, this is the Hogdly-Wiggly," boomed the attorney in reply.—(Columbus Dispatch.)

to pay for your
clothes this fall

HART SCHAFFNER & MARX, the value-standard in Suits and Overcoats are priced this fall—\$33, \$35, \$40, \$45, \$50, \$55 to \$90

Everywhere the word is
passing along, Standard
Hart Schaffner & Marx

THERE'S an easier feeling about clothes
among your friends—you've probably noticed it.

A marked change from a few weeks ago—
when hundreds of men had been forced into a
critical attitude about clothes wholly foreign to the
quiet confidence of former days.

Not captious, exactly. But
conscious of an attempt in some
quarters to rush them off their
feet on a price basis.

The man who wanted dollar
worth as well as dollar talk
had to find it for himself.

Into the middle of this
situation the house of Hart
Schaffner & Marx threw its
announcement:

"100% standard values
in Fall and Winter Clothes.

"A greater value measure
than a year ago.

"Standard Hart Schaff-
ner & Marx prices for Fall and
Winter \$33, \$35, and up to \$90.

"The right, average,

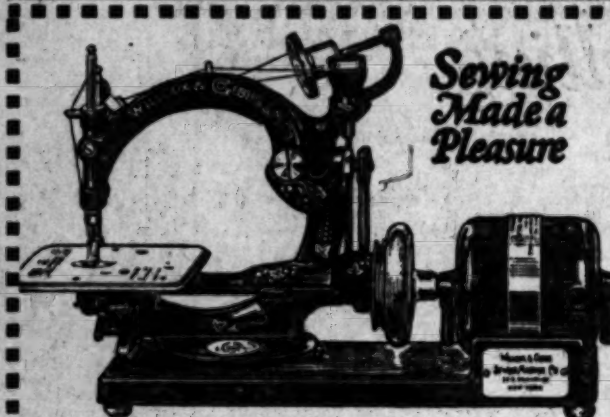

medium price for wear-worthy,
smart clothes should be \$45
this season."

Go look at the Hart
Schaffner & Marx Suits and
Overcoats at \$45—value that
could not be sold you for less
than \$55 a year ago.

Value that you can get for
\$45 today only because the
world's greatest makers of
clothing is standing with the
public to settle this grave ques-
tion of values and sane prices in
the clothing industry.

The window displays tell
the story—our experienced
clothing men will gladly ex-
plain the details, whether you
are ready to buy now or not.

A CHUCKLE for EVERYBODY

LOCAL LAUGHS

Each week The Times produces a film entitled "Local Laughs," consisting of the fifteen best jokes submitted by local people. Weekly prizes are paid of \$1, \$2, \$3, and twelve of \$1 each. A list of theaters showing the film, together with rules for submitting jokes, are given daily in a coupon in The Times. Prize-winning jokes, names and addresses of winners, appear only on the screen. Jokes receiving honorable mention will be given a place of honor on The Times comic page each week-day, and each of these contributors will receive a souvenir of acknowledgment.

"Who was the first radio fan?"
"Paul Revere. He broadcast with one plug."
Myrtle Minkley, 1235 North Holliston, Pasadena.

"Your cousin is awfully short."
"Yes, he's so short a headache powder affects his feet."
P. D. Oufen, Route 2, Box 1185, Burbank.

"You struck the deceased between the diaphragm and the duodenum?"
Witness: "I didn't say no such thing. I said he was shot between the hippen and the windhouse."
P. D. Oufen, Route 2, Box 1185, Burbank.

"Where'd you all get that derby hat?"
"A surprise from mah wife."
"A surprise?"
"Ah come home the other night unexpected and found it on do table."
E. MacDonald, 93 S. Grand Oaks, Pasadena.

WILDCAT WELL ABANDONED

Associated Drills Deep With Poor Results; Will Start Another Test Hole Later in the Year

The Associated Oil Company has abandoned its Well No. 1 test well on the Helman ranch at Seal Beach. Hole was down 8742 feet when the company decided to stop drilling. It is unofficially reported that the drill found two or three light sands, indicating the presence of oil, but not enough to be worthy of a production test.

It is understood that the Associated is still of the belief that there is an oil field somewhere on the Helman property. This belief is shared by geologists for some of the other major operating companies.

The prevailing impression among the field men is that the Helman No. 1 was too far north to hit the pool. While no official statement could be obtained yesterday, it is understood that the Associated plans to start another well within the next sixty days.

Because of the size of its holdings and its conviction that oil is somewhere in the Seal Beach district, the Associated is expected to inaugurate a new policy in its second well. The location of the well is expected to be made after a careful analysis of the logs of all other wells in the district.

The second well, it is expected, will then be drilled to a depth of about 3500 feet. The formations at that depth are expected to show the Gross well, which is a south of the structure goes and to furnish material on which a third well, to be the real test of the area, may be drilled.

The Seal Beach situation as a whole is in a complicated state. While it is an accept-

News of the Oil Fields and Their Products; What Basin Fields Are Doing

STORY OF INGLEWOOD TOLD Standard Oil Bulletin of Recent Date Reveals Part Played by Company in Opening Field

Under a heading "The Game of Hide and Seek," the Standard Oil Company of California, in its Standard Oil Bulletin for September, discusses the part it played in the discovery of one of California's greatest petroleum fields, in the following manner:

"The most interesting oil field in California today, or at least one of the most in the limelight, owing to its continued prolific output of crude oil, is Inglewood, in Southern California. Inglewood was discovered by this company just a year ago. The first well was small—118 barrels a day. But the oil was there. Subsequent drilling, by this company and by numerous others, brought new oil until production reached 116,000 barrels a day in July of this year. The field now yields about 100,000 barrels daily.

PLAN OIL TESTS Shallow Drilling to Take Place in Maricopa Fields

MARICOPA, Oct. 11.—W. A. Wright of this city has received a portable drilling outfit, which he has taken to the Elkhorn Valley between here and the Carrizo Plains where work on government lands. Two portable drilling rigs were unloaded in Taft the same day Wright's rig was unloaded here, indicating that considerable shallow prospecting for oil will occur here in the immediate future.

EXAMPLE OF HAZARD About Inglewood, however, is the example it affords of the hazard, or uncertainty, of finding oil. People in oil feel that the general public does not fully realize the great task which confronts the oil industry in finding new supplies of crude. The great success, infrequent but spectacular, captures the public eye, and creates an impression that to find oil one drills a hole and stands by for the black gold to pour forth.

"Oil in the vicinity of Inglewood was suspected more than ten years ago. No oil had been found in the general vicinity, but there were geological indications favorable to its presence, a fault in the earth, running roughly north and south, was found, and it was believed, from the best geological study that could be made, that there might be oil to the east of this fault. That seemed to be the logical place. Hence, a well was located and drilled, to a depth of 5010 feet, but no oil was found. A second well, called Cienega No. 2, farther west, but still east of the fault, was drilled. No oil there, and the well was abandoned in 1919 at 5172 feet.

TEMPORARILY DROPT
"Then came a flood of oil from several new California fields, and operations at Inglewood were suspended for the time being. But the geologists continued studying the land, and reached a conclusion, through their geological deductions, that a further test in what had once seemed the less favorable place—west of the fault—should be made. After nearly six months' drilling in 1924, oil was found at 2134 feet, some 4000 feet south of the west of the Cienega No. 2 failure—a small well, but one which proved the field.

"The new field developed northward, and broadened out west and east. Today its eastern edge is only 1000 feet from the old Cienega No. 2 dry hole. In other words, in 1924 the discovery of this field was missed by a fifth of a mile. This company was not the only one trying for oil in that region. Numerous other attempts were made, and failed, with total losses undoubtedly running to several hundred thousands of dollars.

"Inglewood is not unique. This company once missed finding a fine field by 600 or 650 feet. Another company would have discovered it.

A Hint
Julius: Mary doesn't seem to care much for that young doctor. Muriel: No, every time he calls she lets him see her eating an apple.—(Exchange)

WELL INDICATES Production of 150 Barrels Day HUNTINGTON BEACH, Oct. 11.—The California Petroleum Corporation is swabbing its Brown No. 6 well, which was drilled to a depth of 3455 feet, and indications from this operation are that the well will yield probably 150 barrels per day. It is located at Delaware and Quincy streets. While it was being drilled the hole developed heavy gas pressure.

The Snowflake Oil Company is drilling its Portland No. 1 well and is about ready to make a production test, field reports say. Lease men assert that practically all of the land between here and Santa Ana lately has been leased on the strength of activities in the Santa Ana Gardens No. 1 test well of the Standard Oil Company, about two miles south of Santa Ana.

WELL LOST AS CASING RIG BREAKS General Petroleum Quits Drilling Operations in Hole After Accident

MARICOPA, Oct. 11.—The General Petroleum is skidding the rig on its annex offset well to the Obispo No. 6 on Section 52, 13-23, having lost the hole at 1983 feet when the sixteen-inch string of wireline parted in running casing.

A new high-grade steel casing was used in a combination surface and water string in an attempt to shut off the water above the first sand at the depth given, but the string proved too great and the string parted. Fishing being impractical, the hole was abandoned and another will be started at once.

The Standard Oil Company is completing a lease-hold on the Riasa property on Sec. 10, 11-33. The Riasa Oil Company, owned by Henry Berry, on Sec. 24, 22-24, has begun rigging up to drill its No. 11 location opposite the Fortmax No. 4. This is one of the most prolific shallow depth sections on the west side, the Fortmax, Big Ten, Surprise and Midway companies having taken millions of barrels of oil from depth running between 800 to 1200 feet, the oil sand ranging from 400 to 700 feet in thickness. The Riasa No. 11 will be drilled with ten-inch casing.

WEEKLY STOCK RANGE The public service department of the Merchants' National Bank of Los Angeles issues the following table of the range of prices on the New York Stock Exchange for the week ending October 10, together with the net changes as compared with the close of the preceding week. production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager
of the Los Angeles
Oil Company, on Oct. 10.
The estimate is based
on the fact that the
production of petroleum
has been increased to
1924, or about
100,000,000 barrels
annually, according to an
estimate made by Valen-
tine, manager

Things Look Brighter Now

Charles F. Wells and his six children arrived in Los Angeles yesterday, where the father is held in jail. The children, who were with him when he was arrested, are now being cared for by a relative.

Which Kind of a New City Hall Shall It Be?

QUANDARY ON HEIGHT OF EDIFICE

Architect Urges Original 430-Foot Plans as He Cites Substitute's Added Cost

A new City Hall soaring to a height of 430 feet or a City Hall 150 feet in height, but meeting the present building requirements of the city? The above question has risen to trouble city officials as a result of City Attorney Stephens' recent reminder that the new city charter restricts the height of all buildings to an even 150 feet, whereas the Board of Public Works already has accepted and approved plans for a City Hall in the Civic Center 430 feet in height and containing twenty-eight stories.

FORESTER JOB LIST CLOSED

Fourteen Seek County Post, Including Spence Turner and Maj. Evan W. Kelly

Fourteen applications have been received at the office of the county Civil Service Commission for the right to take the competitive examination for the position of County Forester, made vacant several months ago with the death of Stuart J. Flinham.

WILL RESTOCK STREAMS

Rainbow Trout Fry Shipped by Rail, Truck and Burro to Replenish Mountain Waters

Rainbow trout to the number of 300,000 are scheduled to arrive at Asusa this morning in a special car from the State Fish Hatcheries at Mt. Whitney, according to Acting County Game Warden Turner, who said the fish will be sent to restock mountain streams of the county.

Local Chamber Group Will Go to Conference

Bullet Believed Fired Off Plane Injures Youth

Henry M. Robinson, honorary western vice-president of the Chamber of Commerce of the United States, and Arthur S. Bent, member of the board of directors of the Los Angeles chamber, will head a large delegation to represent Southern California at the national chamber's western conference in Seattle December 7 and 8, next.

THE SINNER'S SONNET

BY E. D. CAHN

When I have cause to be sad it makes me mad to be told "Just to be glad." I am not much for the cherub whose Slogan is "Cheer up, the worst is yet to come!" I think the sunny uplift stuff is mostly guff and I'm Not a bit sure that whatever IS is right just because Our little rays of sunshine say so. There is a lot of Tish in that optimistic dash and I know it.

DOUBLE BILL FOR TONIGHT AT OLYMPIC

Grand Opera Company in Last Offering With New Kosloff Ballet Added

The California Grand Opera Company has prepared a great double bill for its closing opera tonight in the new Olympic Auditorium, Grand avenue at Eighteenth street. "The Love of Three Kings" and a brand new ballet will be given.

REAL THIEVES

I have known of a good many cases where I felt morally certain that a literary theft had really taken place. In the early days of the movies, some pretty rough stuff was pulled off.

When I was a young boy, I wrote an army story for Youth's Companion. Several years after that same story was sold to another magazine by a man in Iowa. The reason I suspected him of plagiarism was that he didn't change a single word of the story—except the author's name. He even kept the same title.

THIRTY YEARS LATE

On the other hand, I have heard some absurd claims of plagiarism.

A woman wrote to D. W. Griffith accusing him of stealing the story of "Way Down East" from her. The play had already been running for thirty-five years when her own swindling work of genius was penned.

ARM OF COINCIDENCE

Sometimes these people who say "plagiarism" are really and deliberately. Virtually blackmailers.

Sometimes they are victims of coincidence. HAROLD LLOYD'S CASE. Not long ago I made a friendly suggestion to a well-known scenario writer: It was an idea for a story. But in the meantime she was burning to tell me a story she was working on. By heroic self-control I let her tell hers first. The two stories were almost identical.

THE LANCER

HARRY CARR

NOTHING worse has now turned.

It is the movie producer—defending himself against the charge of stealing plots—bright sparks of genius of unknown and unappreciated authors.

MATEUR WRITERS

Cecil De Mille told me the other day that every time he produces a picture he dedicates himself to the fact that it will cost him about \$50,000 to fight the lawsuits that will be brought against him by aggrieved amateur authors.

He has been sued by amateur writers claiming that he stole from them the plots of three of his last plays, "Manhattan", "Feet of Clay" and "Ten Commandments".

It has become a serious menace that he has been compelled to issue an order that he more scenarios shall be read at his studio. They are to be returned unopened.

HIS LIFE SAVINGS

Mr. Pollock in the current number of the Authors' Bulletin, Channing Pollock tells a similar story. He says he has lost a fortune by defending such lawsuits. On one occasion he had generously managed to save \$1000. With this he had gone into retirement to write a play. A provincial newspaper man used him for plagiarism. He was the suit, but spent his entire \$1000 doing so.

AMBULANCE CHASERS

Mr. Pollock says that it has become a regular organized conspiracy on the part of a certain type of lawyer. These lawyers keep clerks in the library of Congress lighting up unproduced works by obscure authors. When they find a popular hit that happens to resemble one of these buried works of genius they dig up the author and bring suit.

They always have a good chance of winning, no matter how absurd their claims. If they lose they have at least gained the publicity which counts as getting into court with a big victory. More often than winning or losing they secure a "settlement out of court."

REAL THIEVES

I have known of a good many cases where I felt morally certain that a literary theft had really taken place. In the early days of the movies, some pretty rough stuff was pulled off.

THIRTY YEARS LATE

On the other hand, I have heard some absurd claims of plagiarism.

A woman wrote to D. W. Griffith accusing him of stealing the story of "Way Down East" from her. The play had already been running for thirty-five years when her own swindling work of genius was penned.

ARM OF COINCIDENCE

Sometimes these people who say "plagiarism" are really and deliberately. Virtually blackmailers.

Sometimes they are victims of coincidence. HAROLD LLOYD'S CASE. Not long ago I made a friendly suggestion to a well-known scenario writer: It was an idea for a story. KHJ WELCOMES
NEW SPONSORBeacon Light Company Now
Tower Studio PatronSunday Program Pleases in
Array of TalentNo Concert Booked Tonight
for Silent Monday

BY PAUL SNEYDY

The tower studio last night extended its greetings and welcome to another new concert sponsor, the Beacon Light Company, who presented an excellent array of talent at the station from 8 until 10 o'clock through the courtesy of their Bureau vacuum cleaner department, the program being the first of a lengthy series to be given over KHJ's microphone.

The two-hour of music and entertainment were of a widely diversified nature, opening with the Arion Trio, composed of Mrs. Chiberg, director and violinist; Mary Novis, cellist; and Lilyan Ariel, pianist, giving the "Spanish Dance" by Mendelssohn in honor of today's observation of Columbus Day commemorating the landing of the explorer at San Salvador in 1492.

SINGER PRAISED

Sara Chellin, who has rapidly won a large following for her excellent renditions over the tower studio microphone, was again highly praised for her group of soprano solos, which included "The Starlings," by Edna Lehmann, "Dedication," by Franz, "Come Sing to Me," by Thompson, and "Spring's Awakening," by Sanderson.

Karl Brandenberg, personnel manager of radio, using a list of the musicians, including "Marching by a Special Request," "At Dawn," by Cadman; "A Dream," by Bartlett; "A Cottage in God's Garden," by Bond; and also this famous composer's "In the Meadow," a different feature was given on the program by Charles D. McCoy, who specialized on single note playing of the harmonica and the famous Swedish monologue "Cassini Oswald."

From 8 until 9 o'clock yesterday afternoon patrons of The Times Edition were again entertained with one of the recently introduced Sunday matinees of the Western Auto Supply Company, presenting the Western Air Patrol trio, which has stellar musicians in the ensemble including Joseph Heindl, pianist; Catherine Jackson, harpist; and Joseph Jean Gilbert, singer.

The ensemble numbers of the trio included "Language of Love," "Romance," by Gershwin; "Cavalcade," by Raff; and "Minuet L'Arlesienne," by Bizet. Joseph Heindl, accompanied by Maria Obuchon at the piano, played Grieg's "Solveig's Song" and "Annette's Song," by Ravel. Catherine Jackson played a happy solo, "Annie's Song," by Godefrid, and a duet with Gilbert, "Adagio Cantabile," by Fontaine.

TENOR PLEASES

A splendid vocal part of the program was given by Dan Gridley. He sang a group of tenor solos, including many of the numbers that have been specially requested during recent weeks.

The studio of KHJ will again observe "Silent Monday" today, with the microphone mute after the noon concert, presented by the Piggy Wiggy Girls Trio and Myrtle E. Watters, soprano, through the courtesy of the Piggy Wiggy Girls.

The practice of some battery manufacturers and distributors of misrepresenting the ampere hour capacities of radio and automotive storage batteries is warned against by the National Better Business Bureau of the Associated Advertising Clubs of the world, in action just received by Fern R. Miller, manager of the Better Business Bureau of the Los Angeles

Girl Trio Popular Radio Entertainers

Piggy Wiggy Girls

Studio Observes "Silent Monday" Today

Advertising Club. The exaggerated capacity figure may be stamped on the box, the communication added, or the box may bear no stamp at all, so the dealer, if he chooses, is left free to misrepresent.

To lend color to this practice, the bulletin continues, thirteen plate containers, for example, have been used for eleven-plate batteries.

The national bureau has suggested to responsible manufacturers and distributors that, to render this practice ineffective, battery capacities be plainly marked on the containers, and that the use of unmarked oversize containers be discontinued.

TODAY'S PROGRAM

7 to 7:15 a.m. "Setting-Up Exercises," conducted by Prof. Barclay L. Stevens.

12:30 to 1:30 p.m. Leighton's Arcade Orchestra, under the direction of Jack Crumshaw.

12:30 to 1:30 p.m. Program presenting the Piggy Wiggy Girls, courtesy of the Piggy Wiggy Girls. Myrtle E. Watters, soprano.

NEW CITY HALL TOWER URGED

(Continued from First Page)

Several days has been studying the charter to determine whether its height-limit provisions can be circumvented in this particular case to make possible the erection of the beautiful new building in accordance with the plans already drawn by the architects.

He has withheld an opinion thus far, but it was indicated yesterday that should he hold the charter to be final on this score the voters may have an opportunity to express their wishes on the question at the next August primaries. The voters would be asked, it was stated, to amend the charter so that the building as planned at present could be erected instead of a structure which would have to be put up should the 150-foot height-limit provision be adhered to in the construction of the City Hall.

Mr. Martin, in discussing the latest unexpected mix-up in the plans for the City Hall, frankly

admitted that a building limited to 150 feet in height would be much more costly and much less beautiful than the higher building planned.

In the first place, Mr. Martin stated, a 150-foot-high building would be completely dwarfed by the new Hall of Justice, which stands on a ground elevation thirty-six feet higher than the site on which the City Hall is to go up, and which is 154 feet in height on one Broadway side. The new Hall of Justice, he stated, therefore, would tower fifty feet above the City Hall if the latter structure is limited to 150 feet.

As it would be necessary to carry the building to the 150-foot limit on all sides in order to give it the ground space required, four interior light courts would be necessary. Experience has shown, he declared, that offices receiving light in this manner are only 45 per cent as efficient as buildings receiving light from the outside.

City employees, however, and officials would be forced to labor under this handicap should the present plans be thrown out.

The cost of such a building also would be much higher, he said. It would have to be faced with ornamental stone or terra cotta all the way up on all sides, whereas the higher building would require this expensive material only about the sides of the first three floors. The tower of the higher building, sitting far back, would blend with the whole in such a way that expensive facing would be unnecessary except on the first floors.

In time, also, he stated, the State and Federal government might enter the Civic Center and erect buildings completely dwarfing the squat City Hall, which would be made necessary by adherence to the 150-foot height limit. Neither the State nor the government, he said, would adhere to the local ordinance in constructing buildings here. Already, he added, a huge gas tank is going up within a few blocks to the east of the site for the new City Hall. This will be 170 feet high and its ugly skeleton will completely overshadow a 150-foot-high City Hall.

"There can be no question," Mr. Martin stated, "that a 430-foot-high City Hall, as proposed, will be much more efficient, a great deal less costly and far more beautiful and graceful than a squat 150-foot-high structure. The present plans call for a building which will be a credit to the city as long as it stands."

MORE PAVING REQUESTED

Property owners have requested the City Council to pave streets in the Alcott and Hope-streets improvement district with six-inch concrete.

FOUR KILLED AS
TRAIN HITS AUTO

(Continued from First Page)

ington street, hurried to Pomona last night upon learning of the accident.

Leland Edwards, Jr., 18 years of age, 1025 Meadowbrook avenue, a student of the Fairfax High School, was killed early yesterday morning when an automobile in which he was riding collided with a car driven by Charles Bernstein of 1509-South Western avenue.

Edwards was riding with three young companions in a machine driven by Leo Neyer, 244 South Broadway street, who was slightly hurt in the crash.

COMPANION HURT

Bernstein escaped unhurt, but a companion, Milo Pollock of 1133 Lodi place, suffered a two-inch scalp laceration. Edwards and the two other victims were brought to Receiving Hospital by Paul Love of 2247 Glendale boulevard.

A passing motorist, The lad died in the hospital. His grief-stricken father insisted that no one be prosecuted after Detective Lieutenants Bradley and Vall investigated the accident. The body was removed to the Lacey Bailey funeral parlors at 1409 Hollywood boulevard, pending an inquest scheduled for Tuesday at 1:30 p.m.

The body of Ignacio Rodriguez was killed and four persons injured, including a woman who may die, when an automobile turned over making a turn in Brea Canyon. His brother, Cesar Rodriguez, driver of the car, was arrested for investigation. Marguerita Cabrera is in a critical condition in the Receiving Hospital, with a possible fracture of the skull.

The automobile was making forty-five miles an hour, according to Motorcycle Officers Rudy of Fullerton and Sassen of Brea, who arrested the driver. Others injured were Jose Zabala, Felix Rico and Micaela Cardello. They were taken to the Fullerton Hospital, and are expected to recover.

The body of Ignacio Rodriguez was taken to the Reale Undertaking Company at Fullerton, where an inquest will be conducted by Coroner Brown.

Herman Martonoff, 8, of 1939 Marengo street, was probably fatally injured when he was struck by the driver of an automobile who did not stop. The boy was picked up in the street by Dr. Martonoff of the General Hospital staff, who announced he had suffered a skull fracture and internal injuries.

Norman Hopper, 19, of 724 South Bonnie Brea street, and Miss Darnalia Costello, 21, of 1908 West Adams street, were critically injured when a roadster, driven by the former, collided at the intersection of South Park and Manchester avenues with a closed car driven by Harold E. Hayes of 3737 Denver street. Both were taken to General Hospital, where it was reported Hopper had a number of ribs broken and Miss Costello suffered a broken back. They were unconscious when found in the street.

DRIVER JAILED

R. V. Sutton, electrician, of 108 South Strosman avenue, Alhambra, was lodged in the City Jail on a charge of driving while intoxicated, following an accident in which his brother, H. V. Sutton, was seriously injured. According to Detective Lieutenants Bazar of the Hollenbeck Heights police, Sutton drove his car into the rear end of a motor truck driven by C. E. Marvel of 140 1-2 West Forty-seventh street. The collision occurred in front of 938 Mission Road. The injured brother was taken to the General Hospital.

Stanley Price, 21 years of age, a truck driver, of 5809 San Pedro street, ran his truck into an electric pole at San Pedro street and Blauvelt avenue yesterday, wrecking it and injuring himself severely. It was reported that Price had a number of ribs broken and Miss Costello suffered a broken back. They were unconscious when found in the street.

An automobile driver by Joseph Stillwell, 36 years of age, of 1611 Hudson street, overturned at Santa Monica boulevard and Doheny Drive. Stillwell, alone in the car, suffered concussion of the brain and a broken shoulder.

In an accident in which one of the drivers sped from the scene without stopping to render aid, Gilbert Wood of 838 North Harvard boulevard received a possible skull fracture. The accident occurred at Madison street and Monica boulevard when the unknown driver crashed into Wood's car.

Mortgage Officer Sam Goldy injured a leg when his motorcycle and an automobile driven by Xenne Havend of 219 1/2 North Avenue 24 collided at Brooklyn Avenue and Boyle street.

Ralph W. Bell, 48, of 1283 1/2 East Sixth street, and James Johnson, 46, of Long Beach, were injured when Bell's car and an oil truck bumped each other at Washington avenue and Central avenue.

CHINESE SEIZED
IN OPIUM RAIDSLuxurious Quarters Are
Invaded by PoliceCostly Oriental Hangings
Adorn RendezvousAsserted Drug King of City
Gets Away

Two Chinese places, which police said were opium dens of an oriental luxuriousness surpassing the dreamiest Chinatown cinema set, were raided early yesterday by the "hop squad." Nine poppy devotees, six pipe outfits, seventy-five toys of opium and quantities of the narcotic drug, yen shee, were seized. The raids yielded the largest haul made by the squad for a long time.

Wong Chung, whom police say is the opium king of Chinatown, was asserted to have been in the first den, but escaped. His personal belongings were reported seized.

The second den raided was at 401 Apollonia street and the officers reached it through an adjoining place after breaking through a partition. They said it was fitted with divans, silk, and oriental furnishings of strange pictureque-ness, and with the more modern services of electrical burners for lookouts and a long pipe-chimney which carried fumes from the place to high above the street level. Three pipe outfits of elaborate design with several mouthpieces were taken, as were fifty toys of opium and a quantity of yen shee.

Chinese taken there gave their names as Bing, Shik Wong, Gum Chee, Lee Faw, Mrs. Lee Fung, and Wong Tung. In the first raid, at 331 Apollonia street, police captured Wing Tung, Wong Jey and Wing Fung, twenty-two toys of opium and a quantity of yen shee also were found there.

Officers Southard, Southard and Roshardt conducted the raids.

JAIL BRINGS
JOY TO BROOD

(Continued from First Page)

youngsters. And so the Astin family ate heartily.

And while they ate, their story was whispered about from one prison cell to another.

"Something has got to be done about this," seemed to be the general consensus of opinion among the prisoners. And something was done. A collection was taken up and, with the prisoners contributing the largest share, a sum of \$75.75 was given Mrs. Astin. The jail matrons contributed \$3.20. Things were beginning to look decidedly brighter for the Astin family.

"Well, we might just as well make a good job of it," said Tom Robertson, another prisoner. "I've got a house at 504 Gifford avenue, Maywood, that the mother and children can occupy as long as they want to. The gas and lights are paid."

So that was the County Jail's Sunday contribution to the welfare of humanity.

Father Held
on Charge of
Beating Girl

Screams of a little girl caused neighbors to call the police to 1810 Temple street early yesterday where Morris Kellerman, 42 years of age, is asserted to have beaten his 13-year-old daughter.

Patrolmen Taylor and Morpaine took the little girl to the Receiving Hospital where she was found to be suffering from serious bruises. They waited until Kellerman returned to his home and arrested him, declaring in their report that he was arrested once before for beating the girl.

STYLE PRIZE WON
BY MISS SOUTHERN

Virginia Southern

"Miss First National," represented by Virginia Southern, was awarded the grand prize for the Eastern Star fashion exposition, which came to a close at the Ambassador Auditorium Saturday night.

The high award, in the form of a huge solid silver loving cup, was presented the actress by E. O. Van Pelt, master of ceremonies.

Wearing a pink gown of heavy satin, embroidered with pearls and rhinestones, decorated with pink ostrich plumes, and carrying a pink-plumed fan, Miss Southern was applauded when she stepped onto the brilliantly lighted stage.

"Miss Warner Brothers," represented by Myrna Loy and "Miss Universal," depicted by Marion Warren, received awards also, the former for beauty and the latter for personality.

Broadway-Hill and-Seventh

1200 Linen Breakfast Cloths (44x44 Inches) Sale Priced \$1.00, Tuesday--Not Today

You Should Shop
At Bullock's
On Tuesdays

FOR Tuesday at Bullock's is a day when new and interesting merchandise is introduced—when special values are offered. Bullock's is continually expanding and with that growth and development different and new types of merchandise take their place.

WATCH Monday's advertisement for presentations of special offerings, featuring the new or unusually priced.

USE BULLOCK'S HILL STREET ELEVATORS

Crepe de Chine Gowns Tuesday in a Feature \$5.95; Chemise, \$3.95

Not the fact that these gowns are \$5.95, but because they are so superior to gowns usually at this price—that is why they are so interesting.

Clever new styles finished with dainty laces, Val. and net, with round, square or V neck lines.

The quality of the crepe de Chine is especially good. And the colorings—all the most demanded—peach, orchid, flesh and blue. Sizes 15, 16 and 17 at \$5.95 Tuesday (not today) at Bullock's Lingerie Section.

The Chemise are of Crepe-back Satin and French Lustre Crepe in addition to Crepe de Chine.

Fashioned with the tiny gathered or plaited skirts or in the straight styles so often preferred. Finished with dainty laces and net. In flesh, peach, orchid, blue, green, maize and coral. Sizes 34 to 44, Tuesday (not today) at \$3.95.

—Lingerie Section, Bullock's Fourth Floor.

USE BULLOCK'S HILL STREET ELEVATORS

Tuesday, Introducing Clever Slips for Dance Frocks, \$7.95 to \$16.50

A new departure in Costume slips—an interesting new foundation for the graceful floating dancing frocks so fashionable this season.

Slips of filmy Georgette with fluttering skirts ending in dainty pefals. They contribute to the rhythmic movement of the new frocks.

Crepe de Chine Slips cut with a rather circular flare.

Gorgeous crepe-back satin slips with insertions of rich lace and side plaits to achieve the desired fullness.

And crepe de Chine slips that wrap around so as to give fullness with slim straightness.

Slips lovely in color—to harmonize with colorful evening dresses. So well designed to accomplish what slips are supposed to accomplish. They emphasize the lines of the dress for which they are the foundation. Priced from \$7.95 to \$16.50 at Bullock's Tuesday.

—Section of Costume Slips, Bullock's Fourth Floor.

\$39.50
to \$95

The tailored dress of wool!

With the preference for that finished "costume" look—the tailored dress of wool becomes a fashionable necessity.

Attention to detail, fineness of fabric, simplicity of treatment, authority of silhouette!... Here is an interesting collection!

Green or beige covert is expertly tailored. Black or navy twills are given youthful relief by accents of brilliant color. A silk gilet in Jenny rose, a flashing under-slip of pencil blue. . . .

Priced from \$39.50 to \$95 . . . In sizes 34 to 44.

Women's Dress Section — BULLOCK'S — Third Floor

Tuesday, The Second Day Bullock's Annual Sale of Fine Wheel Toys--

Imported "Surface Cloth," 95c

Tuesday (not today)

Queer geometric patterns for modernistic home furnishings. For Halloween dance costumes. 36 inches wide.

Colorful Rayon
Drapes \$1.50

Luminous colors to catch the light as it streams through Southern Californian windows. Yet keeping the dignity necessary for living rooms, dining rooms and libraries.

Colored Grenadine
with Dots, 40c yd.

In rose, gold, blue, or green color. Some with white grounds and colored dots, others with colored grounds and white dots. 36 inches wide.

45-inch Drapery
Damask, \$2.50 yd.

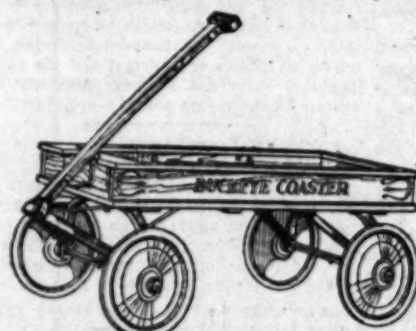

Black and gold, or blue and gold color. Woven with a splendid Roman stripe.

Various Cretones
To Choose, 95c yd.

—Drapery Section, Bullock's Sixth Floor.

With a new feature every day, this Annual Bullock Sale of Wheel Toys extends from Monday till Saturday.

It opens today with over 3000 Automobiles, Scooters, Coaster Wagons, Doll Carriages, Steam Shovels, Dump Trucks, etc.

The Feature for Tuesday Coaster Wagons at \$6.45

With sturdy hardwood body, 14x32 inches, roller-bearing disc wheels with 10-inch rubber tired and Channel steel gear. Even for a sale like this, such wagons are unusual at \$6.45.

"Stutz" Model Steelcraft Auto, 42-in. Body, \$10.75

42 inches long. Of tempered steel. Baked blue enameled finish. Suspension springs. An auto adjustable to fit children 3 to 6 years. Bullock's believes this one of the most remarkable values ever offered in the Toy Store. An improvement on the model that sold last year for much more.

Tot Bikes, Another Value in the Sale Tuesday, \$2.95

Built similar to a kiddie car with pedals to propel it; rubber-tired wheels. A welcome toy for children 1½ to 3 years—at \$2.95.

—Bullock's, Fifth Floor.

Bullock's Linen Room puts forward a whole special purchase! Which Bullock's believes to be an outstanding linen value.

Distinguished by the firm, fine texture, the smart woven-in colored borders. Good-looking for gifts. "Save me 12," was the trenchant comment of one linen judge when he saw these!

Colors include pink, blue, lavender and gold. Size 44x44 inches—but \$1.00 each.

Also Waffle Weave Sets, \$3.75 and Linen Damask Sets (with colored borders) \$4.75

—Bullock's Linen Room, Bullock's Second Floor.

When Felice Hats made their debut in Los Angeles at Bullock's Collegienne Shop, the enthusiasm was so great that many high school and college girls wanted to know when Bullock's would have more of them.

Here they are for Tuesday (not today). The October shipment—felts, velvets, satins and felt and hatter's plush combinations.

In those little shapes so smart this season. In the small head sizes in which this Bullock section specializes.

Several of them sketched. Many other interesting models—all at the specialized price—\$8.50. Exclusively at Bullock's in Los Angeles.

—Collegienne Millinery Shop, Bullock's Fifth Floor.

Colonial Secretaries Are "Good," \$100 Ea.

Leading a Special Emphasis Tuesday on New Arrivals in Bullock's Specialized Finer Furniture.

Built of Mahogany and Gumwood. With all the skill which Bullock's demands of furniture construction.

34½ inches wide, 80 inches high. With 3 large drawers (dust-proof), shelves for books, and writing space (31x32 inches.)

For apartment-house dwellers and those who live informally in small houses: here is a desk, a book shelf, a chest of drawers—all in one decorative piece of furniture.

—Section of Finer Furniture, Bullock's Seventh Floor.

USE BULLOCK'S HILL STREET ELEVATORS

Worsted Wilton Rugs \$110.00, On Tuesday

Rugs from Bullock's great specialization in fine Wilton rugs. Specially priced. Size 9x12 ft. Expert craftsmanship in the weaving. Decorative patterns (many of them oriental) in tan, rose taupe with orchid, apple green and blue.

Modern Hooked Rugs Start in Price, \$10

Surprisingly like antique hooked rugs! Yet with new colorings. Bullock's specialization includes both oval and oblong sizes.

Size 2x3 ft., \$10.00
Size 2x4 ft., \$13.50
Size 3x3 ft., \$15.00
Size 27x34 in., \$16.75
Size 30x60 in., \$21.00
Size 3x6 ft., \$30.00
Size 4x7 ft., \$60.00

India Druggists From Harpur Here

All wool and reversible! Directly imported from India. Bullock's has known of few other rugs so durable, so decorative, so low-priced.

Size 24x36 in., \$2.50
Size 30x60 in., \$4.50
Size 3x6 ft., \$6.00
Size 4x7 ft., \$10.00
Size 6x9 ft., \$20.00
Size 7x10.6 ft., \$26.50
Size 9x12 ft., \$35.00

Interest to Women

The LAST WORD

By ALMA WHITAKER

OUR SHAMES ARE SILLY SHAMS

"Oh, I was so ashamed," said Zeida. "I had to say our car was in the garage for repairs when they asked me to meet the speaker at the station."

"Ashamed of what? Didn't you want to do it?" asked hubby mildly.

"You know very well," replied Zeida. "How could I drive down in that shabby old Ford? Of course I wanted to fetch a celebrity like that. It would have been an honor. But I am too ashamed of that old car. I don't see why we can't have a decent one."

"Angel, so that's it! Mighty lucky to have the old boat on our present funds. It runs, doesn't it? You have no kick in you, any way? You have no worse to be ashamed of than that?" protested her spouse.

But Zeida did a little weeping and had quite an emotional time being ashamed of the Ford.

Imagine her surprise, therefore, when, later, the Great Celebrity informed his audience at the club that "I like shabby old things—shabby old coats, shabby old books, shabby old furniture, shabby old towns, even cheap, shabby old automobiles. I would have arrived in a most respectable old Ford today, and disgracefully shabby old clothes, if I had not been afraid of disgracing your distinguished club."

And then Zeida was ashamed of wasting her tears and plugging her husband—which was a much more sensible thing to be ashamed of.

"Alice was confiding in me one day. 'You know I would just love to invite those people out to my home. But they are so much better off than we are. They have such a lovely home and a maid for the table. How do I expect them here to our plain house, with my having to change the plates myself? I would be so ashamed.'"

The Woman and Her Job

BY VALERIE WATROUS

WHOSE DRESS IS THIS?

Persuasion is always the better part of force, but there are times when one is as dangerous as the other where used on a customer. The reactions of the woman in a dressmaking shop are similar to the purchaser who goes into a department store to buy a gown.

Recently a friend wanted a dress—there was in the picture—and I hate those scollops! We bought new goods and made a new top but I've been so disturbed and annoyed that the sight of that dress makes me sick. No more dress-makers for me. I'm too easily discouraged, and I don't change inside at all.

I pondered the problem. Why didn't that dressmaker let her customer have what she wanted?

ANSWERS TO QUESTIONS
My Dear Ruth: The Polytechnic Evening High School has hundreds of married women completing high school work, just as you wish to do. You can also take book-keeping, business English, business arithmetic, stenography and typing. If you have any aptitude for figures, take a course in book-keeping the very next day. Make sure of it. It is still better to be equipped with all these. These courses will cost you nothing; part of our school system. The school is on Washington street, between Grand and Flower streets. Classes meet at 6, at 7 and 8 o'clock, and adjourn at 9 p.m.

Diet and Health

By Lulu Hunt Peters, M.D.
Author of "Diet and Health" and "Diet for Children"

PRACTICAL URINALYSIS (Part 3.)

Last week I discussed many did not finish in the last two parts about the urine which I judge you should know, from the letters you write me as well as from my own convictions on the subject. As I explained before, I am not attempting to make laboratory technicians of you, but I don't want you worried needlessly as many of you apparently are, and I do want you to be worried, if necessary, so that you will have an examination.

(If you missed last week's papers and cannot obtain them, send me a self-addressed, stamped envelope with your request and we will send you the booklet I have prepared on the subject of the Urine and Diet in Chronic and Acute Bright's Disease.)

Urinalysis is a very valuable aid in the diagnosis of disease and the normal constituents of the urine are abnormal if increased in amounts markedly over any period of time. These normal constituents can be increased by unhygienic living, especially improper diet and too little water drinking, and by infections, acute and chronic.

I am going to speak of a few abnormal constituents of the urine because in other papers I am going to give you some simple tests by which they can be determined. Before I do that I will speak of some other points of the urine that you should know which I

NORWAY LOOKING TO CANADA FOR WHEAT

WINNIPEG, Oct. 11.—Norway is looking to Canada for a large portion of her import wheat, and the Canadian wheat pool, five or six cargoes of Canadian wheat have been delivered to Norway, he said.

Russia, for the first time since the war, is offering competition. Already Norway has bought some wheat and rye from Russia, but reports of the crop are so unreliable that Mr. Mortvedt does not know to what extent the annual import could be depended upon from that country.

LARGE EXHIBIT AREA

PHILADELPHIA, Oct. 11.—The Sesqui-centennial International Exhibition, to be conducted in Philadelphia, June 1 to December 1, 1926, will cover 670 acres of ground, exclusive of flying field, parking area and army camp.

CHEF WYMAN'S Suggestions for TOMORROW'S MENU

Breakfast
California Prunes
Parsley Omelet
Toasted Raisin Bread
Jam
Milk
Coffee

Luncheon
Krop Kakor
Hearts of Lettuce
French Dressing
Hot Corn Bread
Apricot Souffle
Milk
Tea

Dinner
Crab Gumbo
Radishes
Spanish Meat Pie
Green Peas
Fried Sweet Potatoes
Romaine and Apple Salad
Dried Cake
Marshmallow Ice
Milk
Coffee

KROP KAKOR
(Swedish Dumplings)
Grate four peeled raw potatoes and mix with four cooked, rice potatoes, two cups of sifted flour and half a teaspoonful of salt. Knead to a smooth dough. Run the meat from one lamb chop, half a pound of lean salt pork, and one onion through the fine knife of the meat chopper and mix with a seasoning of salt, pepper, nutmeg and half a tablespoonful of sugar. Divide the dough into twelve even-sized pieces, flatten out, divide the meat mixture evenly onto the twelve pieces, cover with the dough and roll into balls. Drop into boiling salted water and boil half an hour; drain, place on a hot platter and pour over melted butter.

CORN BREAD
Sift two cups of yellow corn meal with one cup of flour and a half of white flour, one teaspoonful of sugar, one teaspoonful of salt, and six level teaspoonfuls of baking powder. Add to these two well-beaten eggs, two tablespoonfuls of melted butter, and one and a half cups of milk. Beat smooth, pour into a buttered shallow baking pan, brush with melted but-

ter, and bake twenty-five minutes in a hot oven.

APRICOT SOUFFLE
Rub twelve halves of cooked apricots through a sieve. Place in a saucepan two tablespoonfuls of butter, half a cupful of sugar, half a cupful of milk, and half a cupful of milk; stir until it boils, add the apricots and stir and cook eight minutes. Remove from the fire and beat in four eggs. Fold in the stiffly beaten whites of four eggs, pour into a buttered baking dish and bake until firm in a moderate oven. Serve as soon as removed from the oven.

CRAB GUMBO
Melt in a saucepan one tablespoonful of butter and one tablespoonful of lard; add one chopped onion, one finely chopped clove of garlic, half a pound of chopped beef, half a cupful of chopped ham, one bay leaf and one Jap chili pepper; stir and cook two minutes, add two tablespoonfuls of flour, mix well, pour in four cups of water and simmer two hours. Strain into a clean saucepan, add two cupfuls of cooked crab meat, two-thirds of a cupful of washed rice, one cupful of canned okra, and four cupfuls of water. Simmer for one hour and serve very hot with toasted French bread.

SPANISH MEAT PIE
Place two pounds of chopped round steak in a deep earthenware or glass baking dish, cover with one chopped onion, half a cupful of seeded raisins, eighteen stoned and chopped ripe olives, two peeled and chopped tomatoes, two tablespoonfuls of olive oil, a seasoning of salt and pepper, and enough meat stock to moisten. Cover with a short pie crust and bake one hour in moderate oven. Before serving sprinkle with sugar and brown in the oven.

SOUTH BIDS FOR TOURIST TRAFFIC
California Invites East Winter Paradise
Charm of State Given Early Advertising Drive
Thirty-nine Newspapers Aid in Campaign

Preparations have been completed to issue the first of a series of nearly 1,000,000 leaflets to spend the coming winter in Southern California.
The invitations are the result of advertisements of the California Club of Southern California, which have just been completed and appear in eighty-nine newspapers throughout the East and Middle West, beginning at the end of October and continuing until early December. Each advertisement is four columns wide and two-thirds of a page long. The campaign will be planned with advertising in the national magazines, the national newspapers, and the national radio.

PROSPEROUS
The advertising campaign is the most important step in the economic matter of revealing to the East the prosperity of Southern California as one of the most prosperous regions in the world. All of the advertising is done in the Chicago or in the Chicago territory carries the address of the Chamber of Commerce, 100 West Adams street, Chicago, Ill. Since then she has written six songs, three of which have been published. The number of violin, piano and composition.

INSURANCE LAW COURSE
By special request of a number of executives of the largest insurance companies of Los Angeles, a course in insurance law has been organized in the phases of insurance in the branches.
The class will meet every day evening from 7 p. m. to 9 p. m. in the room of the Los Angeles Chamber of Commerce, 100 West Adams street, Chicago, Ill. Since then she has written six songs, three of which have been published. The number of violin, piano and composition.

Music Replaces Sight for Angeleno

Songs Light Darkness for Blind Girl
Beatrice Fenner (at piano), 26-year-old Los Angeles girl, who has won fame and high musical honors as composer of favorite songs of Mrs. Gall-Curci (standing) noted singer.

And I can only fill my mind with coolness
Like a garden.
But, oh, when they speak of you,
I can pour so much love
Into my eyes!
She has written other beautiful verses and poems which are to be published soon by Mrs. Fenner. Of the girl Mrs. Gall-Curci said:
"This blind girl has genius and will do the biggest things in songs that America has so far produced."
Mrs. Fenner left for New York two months ago with her sister, Mrs. Helen Fenner Miller of Phoenix, to enter the American Foundation for the Blind. She then took the difficult Juillard Foundation examination in composition, was awarded the scholarship, and now will study for a year. Mrs. Fenner has learned the Braille system herself and through this method communicates with her daughter, not long ago receiving a letter telling of her success and of her appearance before the musicians—the judges—who were to decide her fate.
"Only her health will prevent her from going right to the top of the ladder," Mrs. Fenner said.

FINDS "WIFE" HE DOESN'T KNOW

Woman, at Chance Meeting, "Recognizes" Beach Salesman as Husband For Twelve Years and Has Him Sent to Jail on Charge of Failing to Provide for Her

LONG BEACH, Oct. 10.—That's my husband. We were married twelve years and ten months ago he left me.
Mrs. John C. Kirby, clerk in the city gas office, pointed to Melville J. Coursons, 21 years of age, of the Hotel Schuyler.
Coursons denied it and furnished the police with enough evidence to be released from jail on a charge of failing to provide for Mrs. Kirby and her child. And even Mrs. Kirby admitted after looking at Coursons' evidence that she might have made a mistake.
"If he's not my husband and my husband and he was standing here side by side, I couldn't tell them apart," she told Sgt. Murphy.
The affair started when Coursons went to the city gas office to make arrangements for gas service in a new home he is soon to occupy with his bride, Mrs. Kirby. "I recognized" him immediately. She let another clerk take his address and then went to the police, asking for a warrant on the failure-to-provide charge.
Sgt. Murphy served the warrant and took Coursons into custody. Both of them considered the matter a joke and when Coursons showed Murphy that he had lived at the Schuyler Hotel for two years, during fourteen months of which Mrs. Kirby said he had lived with her, the latter released Coursons on his own recognizance to appear at the Police Station today.
"That's my husband," Mrs. Kirby said. "He left me ten months ago, but I guess I should know him after living with him for twelve years."
"I've never seen the lady," Coursons apologized. "The only time I ever had anything to do with the name 'Kirby' was about a year ago when a John C. Kirby was arrested for stealing my automobile."
"You call yourself Melville now and that's the same name we gave our little boy. He's 9 now," Mrs. Kirby was still positive.
Then Coursons and Murphy took a trip through the business section calling upon well-known businessmen with whom Coursons has dealt during the three years he has worked in Long Beach as a salesman. All said that they had known him by the name of Coursons for more than two years and that he had been a bachelor all that time.
Mrs. Kirby was silent in the face of this. The police said they wouldn't hold Coursons and Coursons grunted.
"Huh," he said, "I'd like to see this Kirby person."
THREE DECLARED TO HAVE STOLEN DOORS
Accused of having carried away a portion of a house they were examining with the intention of renting, Eunice Corbett, John Corbett and Laura Pratt, will appear tomorrow before Judge O'Neil for sentence or probation on charges of petty larceny. It was charged that the three went house hunting in Inglewood, and seeing a house vacant and unlocked, they inspected it. While there it was charged, they were attracted by several cupboard doors. O. B. Smith, the owner complained and they were arrested, later being released pending hearing. Dep. Dist. Atty. Murray reported that he had investigated the case and that the three were actually house hunting and not cupboard hunting. He agreed that they should plead guilty to petty larceny, the other charge being dismissed. The three applied for probation and were granted it.

REVOLUTION TENDENCIES DISAPPEAR

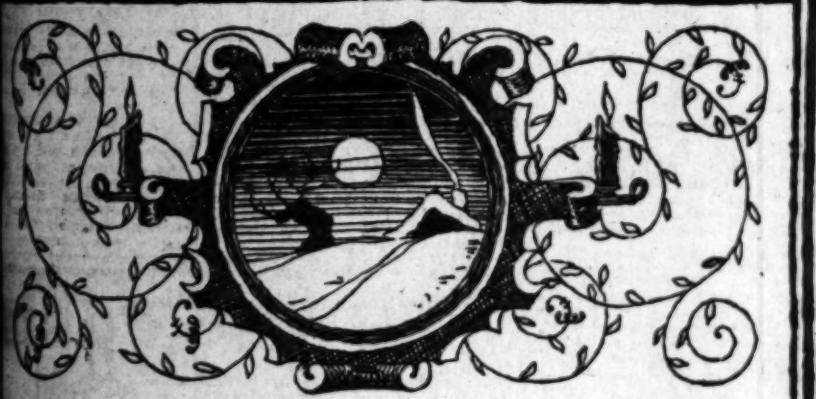

Outbreaks in Both South and Central America Said to be Growing Infrequent

Inclination to revolution appears to have suffered a decline among the Latin-Americans during the last four or five years, according to George Booth of Maracibo, Venezuela, who arrived at the Baltimore yesterday.
Booth, who is the general manager of British Controlled Oil Fields, Ltd., in the South American republic, said he has come to Southern California to study oil production methods here. He also will visit the oil fields in Texas and Oklahoma.
"The last few years have been remarkable for the absence of revolutionary outbreaks in both South and Central America," said Booth. "Formerly these disturbances were of such frequent occurrence as almost to amount to a continuous performance, but for a long time tranquility has reigned supreme. Latin psychology seems to have undergone a radical change."
He said that Venezuela is prospering in all lines of industry and that foreign investors there are as well protected as in any country in the world.
"Venezuela's oil development is going steadily forward," he said. "About 1,000,000 barrels per month are produced in the country at this time. Production involves less expense than in most other fields, the oil-bearing sands being reached at a depth of only about 400 feet. Of course, the Venezuelan fields never will equal those of the United States or Mexico in magnitude, but as far as they go they are extremely profitable."
Odd-Sized Potatoes
When potatoes for boiling vary in size, put the larger ones in the bottom of the pot and the smaller ones on top. Then they will all be done together.

WILL BUILD 5000-SEAT PLAYHOUSE

World's Greatest Cinema Theater Projected Here for Fox Film Productions

Los Angeles is to have the largest motion-picture theater in the world, according to Motley H. Flint, executive vice-president of the Pacific-Southwest Trust and Savings Bank, who returned yesterday after a month in the East. In New York he discussed with William Fox, president of the Fox Film Corporation, plans for the construction of a 5000-seat theater here.
This will exceed by a thousand seats the capacity of any existing theater. It is also planned to have the world's largest film orchestra, with more than 100 musicians. The building, according to Mr. Flint, will be built by local capitalists and leased by Mr. Fox.
Mr. Flint, who attended the convention of the American Bankers' Association at Atlantic City, predicted a successful winter for Los Angeles, and said great improvement would result from faster train service with the East.
GALLERY MARKSMAN WOUNDS BYSTANDER
By a "Times" Staff Correspondent
VENICE, Oct. 11.—Harry McElroy, 33 years of age, of 3933 Ocean avenue, suffered a flesh wound in the left thigh tonight while watching target practice at a Venice Pier shooting gallery. A youth of about 15 years of age who was shooting with a small revolver flourished the weapon, and it was accidentally discharged. He dropped his revolver and disappeared in the crowd when McElroy was hit. McElroy was treated at the Police Emergency Hospital.

'Twas THE WEEK BEFORE CHRISTMAS

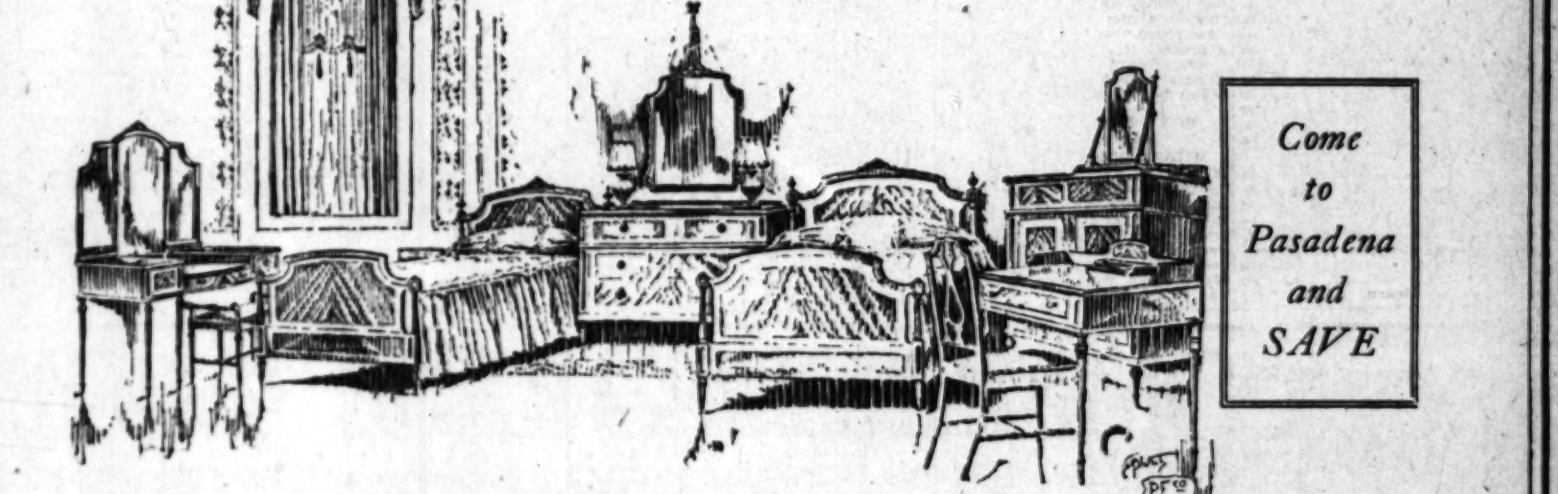

'Twas the week before Christmas and all through the town
Went hurrying throngs into Smith, Jones and Brown,
Seeking greeting cards, Christmas cards, New Year Cards, too,
Getting "left-overs," "picked-overs"—stocks far from new.
A choice made at last—call it that if you may!
To the door each wearily battles his way,
And leaving the store each and every one
Vows again, that next year 'twill be differently done!
If the moral by chance of this tale you have guessed—
That an early selection is always the best!
Heed it now, act at once; don't delay or you'll rue
When the same sad experience overtakes you.

MORAL

This year make the selection of your Christmas cards a pleasure—do it the "Times-Mirror way." It isn't even necessary to come down town. In your own home or office, comfortable and unhurried, you may choose from a complete selection of beautiful, reasonably priced designs in engraved greeting cards.
Simply phone TRinity 5631 and a salesman will call at your address at any hour that is convenient to you. There is no obligation.
You'll really enjoy seeing these beautiful cards and making a selection. Call TRinity 5631 now—there is a smiling voice at the other end.

October--A Month of Greater Values

There is a New Note in Bedroom Furniture

THE cabinet maker's art is at its finest today—a fact that is well reflected on the eight floors of the Pasadena Furniture Company and is particularly emphasized by the new arrivals of the finer Bedroom Furniture. While we may readily trace the authentic lines of the old masters, there is a new note, a particular fascination in each of these more modern adaptations.
Such fine cabinet woods as Mahogany, Walnut, Satinwood, Ebony, Tulipwood, Harewood, Maple and Rosewood are carefully harmonized and contrasted to emphasize their beautiful graining. Hand-painted decorations and inlays, deftly applied, lend unique charm to this beautiful collection of bedroom furniture.

These Few Examples Illustrate the Moderate Prices Prevailing

A new bedroom suite that just came on our floors. Made of walnut and gumwood combined in a dull way finish. Beautiful walnut burl panels on fronts of case pieces and head and footends of beds. 4-6 Bed \$100.00, 3-3 Beds pair \$200.00, 54 inch Dresser \$180.00, 48 inch Dresser \$118.50, Vanity \$94.50, Chiffonier \$159.00, Night Stand \$26.50, Rocker \$25.00, and Bench \$17.50.
Attractive bedroom suite in antique green enamel beautifully finished and highlighted. Colonial design with spool turnings. 4-6 Bed \$32.00, 3-3 Beds, each \$32.00, 41 inch Dresser \$44.50, Chest of Drawers \$27.00, Toilet Table \$36.50, Night stand with drawer, \$11.00, Chair with upholstered seat \$11.00, Bench upholstered \$9.00. This suite is also shown in mahogany finish at the same prices.
A new bedroom suite in Hardwood and Mahogany combined and decorated with small floral design in center panels. Any piece may be selected at the following prices: 4-6 Bed \$124.00, 3-3 Beds pair \$248.00, 50 inch Dresser \$204.00, 52 inch Vanity \$205.00, 40 inch Chiffonier \$172.00, Night Stand Cabinet \$39.75, Chair \$28.00, Rocker \$29.50 and Bench \$23.75.
Sheraton Bedroom suite in genuine mahogany veneer and inlaid striping. A wonderful value at the following prices: 4-6 Bed \$88.50, 3-3 Beds pair \$176.00, Dresser \$195.00, Vanity \$182.50, Chiffonier \$112.50, Desk \$64.75, Chair \$24.50, and Rocker \$26.50.

A Typical Example of the Finer Bedroom Suites
A Berkey and Gay Bedroom suite of 10 pieces. Genuine walnut throughout and beautifully finished in a dark, rich antique brown. Suite consists of Twin Beds, Bureau, Chiffonier, Vanity, Desk, Night Stand, Chair, Rocker and Bench, as illustrated.
Price complete \$885.00
Highboy exactly as pictured. Made of genuine walnut and burl maple. The decoration as shown on door panels is made entirely of genuine inlay as well as the striping on the fronts of drawers. This is truly an unusual piece and must be seen to be appreciated. Price \$387.50.

A visit to our 6th floor will be worth your while. There you will find beautiful displays of art objects, many fine paintings and scores of unusual pieces of furniture of the finest type.

**DEMAND CHANGE
IN STATE LAWS**

Real Estate Men Want Repeal
of Inheritance Tax

Say Proposed Amendment is
Dangerous

Favor Special Session for
Quick Relief

(EXCLUSIVE DISPATCH)

FRESNO, Oct. 11.—Resolutions were unanimously adopted by the California Real Estate Association in session here yesterday, demanding the repeal or drastic modification of the State inheritance law, and attacking a proposed constitutional amendment, which would do away with personal property taxation and modify real estate improvement taxes.

The constitutional amendment proposed was set forth in the resolutions as a move to single-tax advocates, who in a previous session of the twenty-first annual convention of the association, are declared to be attacking their objective through indirect action, due to the excessive tax burden of the State.

The resolution directed against the amendment states that the association "is opposed to and condemns such efforts as being another step in the line with the present work of single taxers of the State to increase taxation upon land, which is now bearing an unequal share of tax burden."

In reporting for the taxation committee of the association Robert A. Swink of Pasadena said that while State Controller Ray L. Riley is opposed at this time to repeal of the inheritance tax, he will work with the association and other agencies to bring about its repeal or modification under certain conditions, as follows: If the Federal government will repeal its estate tax law, if Congress does not repeal the Federal tax, but will modify it to make a portion of the revenue it produces available to the State, then the Legislature will be urged at the next session to repeal or drastically modify the law, to remove a large portion of the burden.

**Damage Suit
is Delayed
at Santa Ana**

(EXCLUSIVE DISPATCH)
SANTA ANA, Oct. 11.—Argument on two demurrers to a \$10,000 damage complaint, filed by M. L. Harbison of Anaheim against the members of the Anaheim City Council, was postponed a week when the matter came before Superior Judge E. J. Marks late yesterday.

Attorneys in the case were not prepared to present argument on the demurrers at the scheduled hour yesterday. The presentation was therefore continued to next Friday, the 16th inst., at 2 p. m. The demurrers were interposed by Councilmen Perry Mathews, A. W. Franzen, Geoffrey Stock, W. D. Grafton and L. E. Miller, who were sued by Harbison for alleged malicious prosecution. Harbison seeks \$5000 damages because Franzen swore to a perjury charge against him in the next stop of the charges on account of a libel charge. After prosecution of the two charges had reached Superior Court Harbison had been arrested. Harbison included all members of the Council as defendants, asserting that they all instigated the action by Franzen. The two criminal complaints were filed against Harbison, in attempting to oust the Councilmen from office, failed to substantiate charges against them.

**PROTEST IMPROVEMENT
Pasadena Taxpayers Object to
Opening of Avenue**

By a "Times" Staff Correspondent
PASADENA, Oct. 11.—Opening of Oak Knoll avenue between Colorado street and Herkimer street, a \$200,000 project that has long been contemplated by the city, cannot be accomplished except over the protests of property owners liable to be assessed for the cost of the improvement, as they have filed formal protest with the City Clerk against the assessments.

Eighty per cent of the total cost will be borne by Frank G. Hogan and Dr. George B. Fundenberg, property owners, who will secure new frontings on the street. The other 20 per cent will be spread over the district so that in some cases the cost will be only \$2.50 a front foot, according to present plans.

**HEAVY SHIPMENTS
Kern County Sends Much Fruit to
Market**

(EXCLUSIVE DISPATCH)
BAKERSFIELD, Oct. 11.—During the last week Kern county shipped 219 carloads of grapes and one car of sweet potatoes, according to the compilation at the office of Whit C. Barber, county horticultural commissioner. Out of this total Delano shipped sixty-one carloads.

The greatest amount of any one single variety of grapes consisted of thirty-eight and one-half carloads of Malaga. Thompson seedless grapes were next in quantity with twenty-five carloads.

The commissioner stated that the peak of the county's fruit shipments will be attained this month. Next week the movement of Emperors, packed in sawdust, will be started. Prospects for a heavy crop of these grapes are excellent, according to Mr. Barber, because of the greatly increased acreage in this county.

**NUT CROP
IN VALLEY
IS MOVING**

Ten Tons Being Received
Each Day in Association
Warehouse at Lankershim

(LOCAL CORRESPONDENCE)

LANKERSHIM, Oct. 11.—The harvest of English walnuts in San Fernando Valley is now on in full blast, with an average of ten tons being received daily at the Lankershim warehouse of the valley walnut marketing association, according to Manager D. C. Brown. By his estimates, as the result of several surveys, it is expected that the valley's groves this year will yield about 300 tons of nuts. This is about the same as the yield of last year.

Despite the two consecutive dry winters, the nuts are of better quality than last season. Processing and packing will continue until November 20, next, when the second crop will close. First-quality nuts are quoted at 29 cents, the price of last year, but smaller ones show a decline of 1 cent.

Number Ones are bringing 24 cents and Number Twos, baby soft shells, 15 cents.

Records in Mr. Brown's hands show that the valley orchard area was increased about 5 per cent within the last year. All of the new planting is in the western end of the valley between the foothills and level ground toward the east. It is being found that this part of the valley has the best adaptability for walnut growth.

New plantings, however, are being made in all parts of the valley, to take the place of old walnuts that are more or less being destroyed for subdivision purposes.

**Valley Rabbit
Men to Discuss
Value of Pelts**

(LOCAL CORRESPONDENCE)

ROBBER, Oct. 11.—The statement made by H. A. Miller of the agricultural department of the Los Angeles Chamber of Commerce declaring that rabbit breeders in Southern California are wasting their time rearing rabbits for fur, will be the chief topic of discussion when the San Fernando Valley Rabbit Breeders' Association meets here today in the Women's clubhouse.

After issuing his statement which asserted that all breeders in the Southland should confine themselves to the rearing of rabbits for meat, Miller mailed the statement to all breeders in the valley and to other parts of the Southland.

Miller states that there is a demand for \$1,000,000 in rabbit meat annually in the Los Angeles and near-by markets and that the average rabbit pelt is worth only about 10 cents.

There are thousands of breeding stock rabbits in the rabbitries of San Fernando Valley, owned by about 100 persons who recently issued the valley's first breeders' directory for the purpose of making the business one of the leading industries in this section.

It is estimated here today by growers in Van Nuys and Reseda that the statement issued by Miller is likely to have a corrective influence on the valley's rabbit industry, many of whom of late have signified their intention of producing rabbits in wholesale quantities for fur as well as for meat.

**Angelino Uses
Two Methods
in Ending Life**

By a "Times" Staff Correspondent

OCEANO PARK, Oct. 11.—Certainly two and probably three methods were combined today by F. B. Springer, 40 years of age, of Los Angeles, to bring his life to a close. He arrived here Saturday and rented a room at 130 Main street. This morning, according to a police report, he cut his wrist with razor and ran to the end of the Lick Pier, from which he jumped into the ocean.

He was dead when pulled out, leaving police to bring him to the morgue, as his body was floating and he did not, apparently, drown.

In his room were found letters and papers indicating he was a defendant in a divorce action, police said. Testimony of a brief note, asking that Mrs. Cecil B. Springer, 439 South Milton street, Los Angeles, be told. The note added that he had been out of work and was discouraged generally.

**ALHAMBRA ELKS WIN
Lodge Takes First in State Contest
at San Francisco**

(LOCAL CORRESPONDENCE)

ALHAMBRA, Oct. 11.—Scoring 99 points, the ritualistic team of the Alhambra Lodge, B.P.O. Elks, won first honors in the State contest staged at the convention of the California Elks' Association at San Francisco. News of the triumph of the local team reached here upon the return of the officers of the lodge from the north today.

The Alhambra ritualistic team had already won the contests in the south-central district of the lodge and at San Francisco entered the finals, competing for the State championship.

The team was led by Exalted Ruler Leon S. Uiter and was composed of the following other officers of the lodge: Dan B. Martin, esteemed leading knight; F. W. Okey, esteemed loyal knight; L. M. Titus, esteemed lecturer; R. N. Moorhead, treasurer; P. O. Prince, secretary; Joseph Walker, equisitor; Wynne Savage, inner guard; Elmer Potter, tyler, and W. M. McCarthy, chaplain.

REDONDO BEAUTIES AID ELKS' SHOW

Peaches of the Beaches Fill Cast in Natty Breeches

The Redondo Beauties, a group of women from Redondo Beach, are featured in the Natty Breeches show. They are dressed in elaborate costumes and are posing for a photo.

**Mitchell Not
Ungentlemanly,
Says General**

By a "Times" Staff Correspondent

PASADENA, Oct. 11.—Whatever charges may be brought against Col. William Mitchell, storm center of the air service, he will not be charged with that article of war citing "conduct unbecoming an officer and a gentleman," in the opinion of Col. B. B. Devore, United States Army, retired, and former brigadier-general commanding the One Hundred and Sixty-seventh Brigade of the Eighty-fourth Division of the A.E.F.

Col. Devore, who, with Mrs. Devore, is at present stopping at the Vista del Arroyo Hotel in Pasadena, declared today that Col. Mitchell's actions had been open and above board in every respect, and that, regardless of the merits of his contentions, he will be respected for speaking out frankly in a matter of vital importance to the nation.

The distinguished military visitor declined to state whether or not, in his opinion, Col. Mitchell's charges are warranted, explaining that he has been on a retired status for three years, and has not kept in intimate touch with internal military affairs since his retirement.

Col. Devore, a native Ohioan, is here from Washington for an indefinite stay. He has a brilliant record in the Army extending over a period of forty years. A graduate of West Point, he saw service in the Spanish-American War, the World War and other infantry operations. During the latter conflict, he was raised to the rank of major general, which he held with distinction both at home and abroad as a brigade commander.

**Elks Planning
Annual Event
for Hanford**

(EXCLUSIVE DISPATCH)

HANFORD, Oct. 11.—Arrangements on an elaborate scale are being made by Hanford Lodge of Elks for the first big get-together meeting of the Elks' lodges of the San Joaquin Valley, which takes place in this city the 31st inst., and will be held in the new municipal auditorium, having a seating capacity of 2400. A class of candidates from all Elks' lodges in the valley will be initiated, and a special feature will be that the Exalted Rulers of all the various lodges will fill the chairs. Besides candidates for initiation, each lodge is to furnish an entertainment feature and the Bakersfield lodge features will probably create the most interest, as "The Purple Guard" of that city, national champions, will present their drill just as they did at Portland at the grand reunion, where they took the championship cup. Fresno Lodge is to bring its Glee Club, Hanford Lodge its Elks' orchestra, etc. At the close of the meeting Hanford Elks will serve a buffet lunch in the auditorium annex.

**BELL TO DEDICATE
NEW HIGH SCHOOL**

(LOCAL CORRESPONDENCE)

BELL, Oct. 11.—Great preparations are being made for the dedication of the new Bell unit of the Huntington Park Union High School the 31st inst. Stanley B. Wilson of Los Angeles, formerly a member of the State Board of Education, will be the principal speaker.

At 7 o'clock in the evening the school will be thrown open by the faculty for the inspection of the public, this lasting an hour. The hundreds of guests who are expected on this occasion will then assemble in the auditorium, where a program will be given.

Freshmen and sophomores only will attend the new unit, but they are accounted just as much members as the students of the Union High School who attend the main plant.

PARKS MORE POPULAR

Reports Show That Every Year Attendance Increases
at National Playgrounds

(EXCLUSIVE DISPATCH)

GIANT FOREST (Sequoia National Park) Oct. 11.—Sequoia and General Grant National parks are luring more people to the wonders of the travel report for the year 1925 just completed by Col. John R. of the big trees and their other beauties all the time according to the travel report for the year 1925 just completed by Col. John R. White, park superintendent.

An increase of 25 per cent is shown in this year's number of visitors over that of last year. A total of 25,381 cars and 77,194 visitors came in this year, as compared with 10,150 cars and 69,483 visitors in 1924. Of this Sequoia National Park had 14,272 autos and 44,477 persons, showing a gain of 29 per cent in autos and 35 per cent in visitors over 1924.

Gen. Grant National Park had 11,108 autos bearing 40,117 persons, an increase of 21 per cent in autos and 18 per cent in visitors over last year. Of the travel to Sequoia National Park this year 50 per cent of it came from Southern California and 18 per cent from Northern California, 18 per cent from other States and foreign lands were 17 per cent. The travel from the south gained 1 per cent over 1924; that from the north, 2 per cent; that from the east, 1 per cent; the valley showed a drop of 4 per cent, but other States and foreign lands had a gain of 5 per cent.

Gen. Grant this season drew 35 per cent of the guests from Southern California, 14 per cent from Northern California, 51 per cent from the valley and 9 per cent from other States and foreign lands. As much of the travel from Southern California naturally represents eastern and middle western tourists spending the fall, winter and spring in California and who register their cars in this State, it is said, a figure of 50 per cent for "out of State and national travel" would probably be more correct.

Ranger and Mrs. George Magly are stationed at Giant Forest for the winter and expect more visitors than ever before this season to enjoy snow sports. Snow which has been in the valley since Oct. 1 is said, a figure of 50 per cent for "out of State and national travel" would probably be more correct.

Three inches of snow fell here, but melted within twenty-four hours.

FLOCK TO FONTANA

Booming Community Shows Gain
in New Residents

(LOCAL CORRESPONDENCE)

FONTANA, Oct. 11.—Check completed here today by the Fontana Chamber of Commerce reveals that during the past six-month period all records were broken when a total of 383 families are stationed at giant Forest for the winter and expect more visitors than ever before this season to enjoy snow sports. Snow which has been in the valley since Oct. 1 is said, a figure of 50 per cent for "out of State and national travel" would probably be more correct.

The total investment during this period in large houses, hotels, restaurants and other buildings, and before the middle of October will pass the million-dollar mark. In general, new settlers at Fontana have bought property, planted grapefruit groves, vineyards and young walnut orchards, although numbers of acres close to and adjoining the town have been sold.

From April 1 to the 1st inst., has marked an era of unprecedented growth in the community, expansion for this whole region.

OPEN DAY NURSERY

Location for Institution Donated
to Organization

(LOCAL CORRESPONDENCE)

ALHAMBRA, Oct. 11.—A vote for the new Alhambra Day Nursery at 708 North Wilson avenue in the heart of the city was today proved by the City Commission. The recently elected board of directors of the organization have voted to accept the site, putting the nursery into operation.

The quarters for the institution were made possible through the gift of Mr. J. P. Brennan, of this city, who donated the use of a five-room house on the North Wilson-avenue location to the new nursery for a period of two years, at the expiration of which the building will be put in condition for use at once and will be furnished from funds already secured by the Parents' Teachers' Association and other supporters of the project.

**CHURCH CONVENTION
GOES TO ALHAMBRA**

(LOCAL CORRESPONDENCE)

ALHAMBRA, Oct. 11.—The new Alhambra Baptist Church has been chosen for the first annual convention of the Southern Baptist Association and the sessions will be held here on Tuesday and Wednesday, the 13th and 14th inst. The association was formed last year and is composed of thirteen of the Baptist churches formerly connected with the Los Angeles association.

Three sessions will be held on both convention days, morning, afternoon and evening. Prominent ministers of the denomination are on the program. Tuesday evening a men's banquet will be held and on the following evening the young people will gather for a banquet.

The cities in the new organization include Alhambra, Pasadena, South Pasadena, Azusa, Covina, Monrovia, Sunland, Burbank, San Fernando and Van Nuys.

**TO TEACH WOMEN
TO PLAY TENNIS**

(EXCLUSIVE DISPATCH)

REDLANDS, Oct. 11.—Miss Calverna Lines of La Brea, Wis., has arrived here to take charge of the tennis work in the physical education department for the women of the University of Redlands. She will also have charge of the tennis work in the physical education department for the women of the University of Redlands. She will also have charge of the tennis work in the physical education department for the women of the University of Redlands.

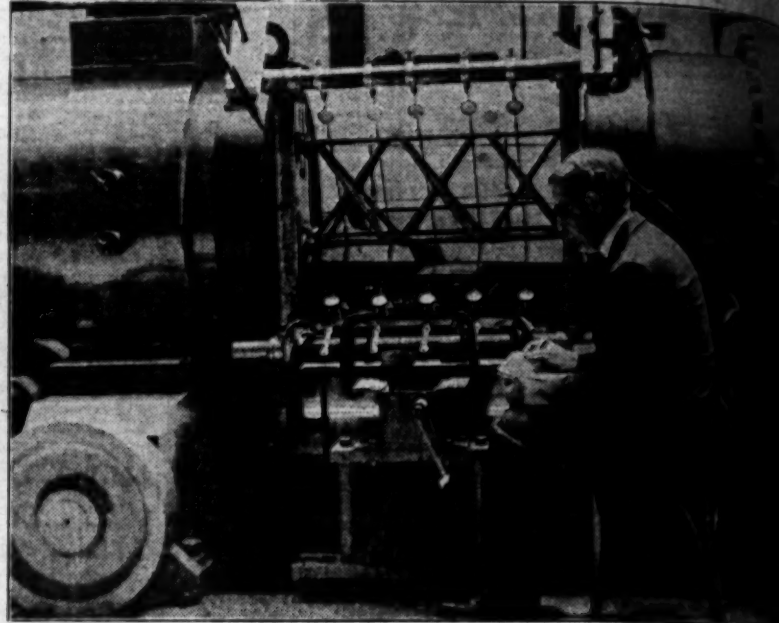

Pictorial Review of Recent Progress in Science and Invention

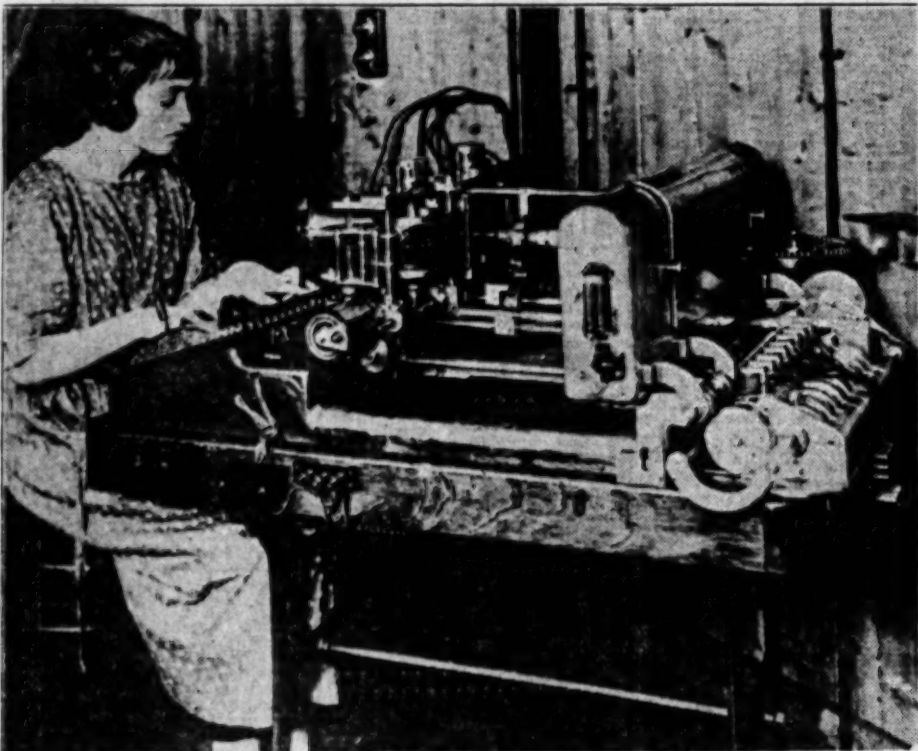

Feat of Transmitting Photographs by Cable has been successfully accomplished through the Bartlane process, exclusively controlled by Pacific & Atlantic Photos. Photo above shows Capt. M. D. McFarlane (middle,) one of the inventors, receiving cable photo of Princess Mafalda's wedding. (P. & A. photo.)

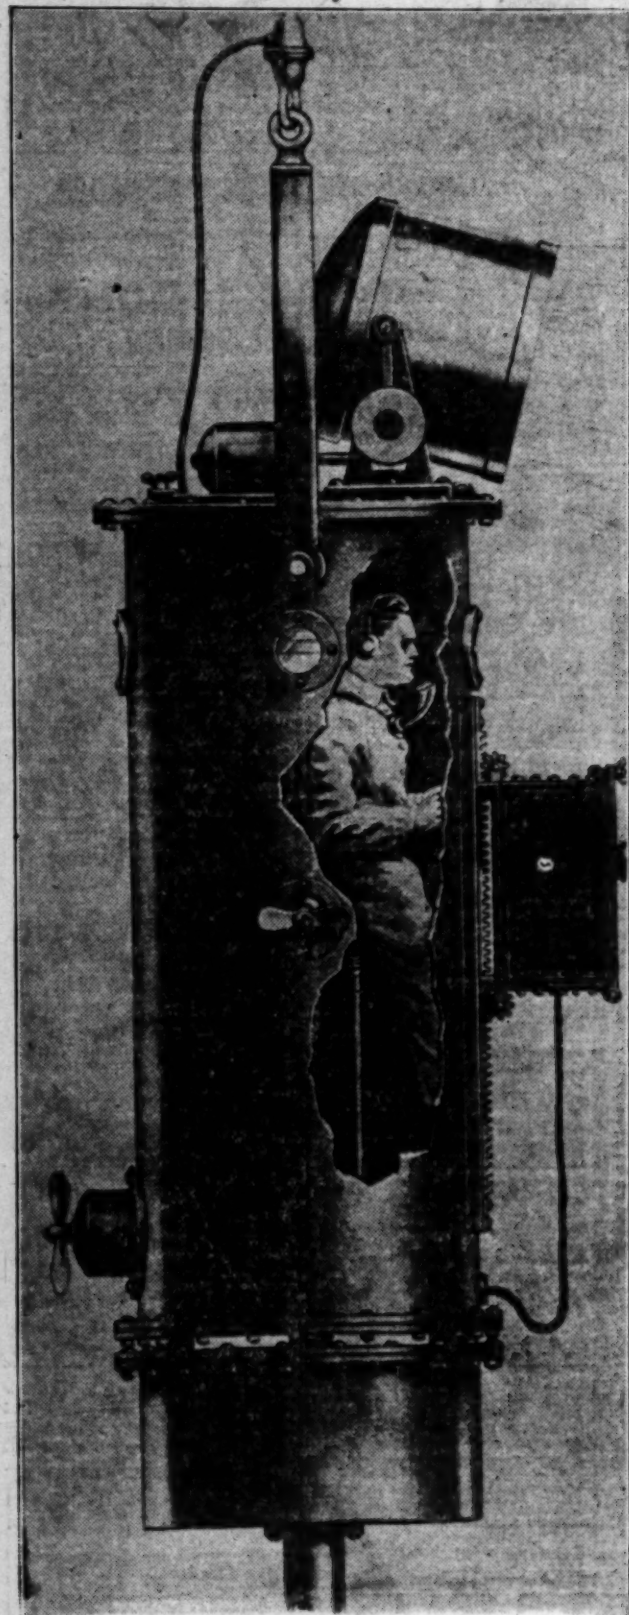

Incubated Bacteria Cultures collected by Miss Gertrude Rogers (above) at various altitudes up to 3000 feet, through use of an airplane, are being used in research work at the State Normal School at Quincy, Mass. (P. & A. photo.)

A Test of the Girders of the Shenandoah, made months before the great crash over Ohio, killing fourteen of her crew, is pictured above at the bureau of Standards, Washington. The machine used in the test of one of the girders possessed crushing power of 2,300,000 pounds. (P. & A. photo.)

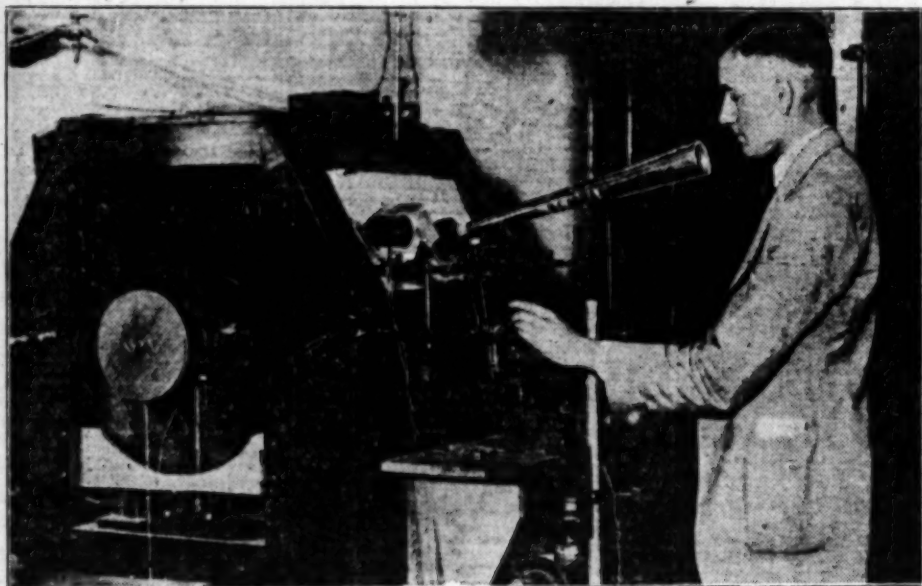

The Linotype, a Mechanical Wonder in Itself, will become obsolete as a method for setting type, if the invention of London scientists, which uses photography, proves successful, as it is predicted it will. Photo shows a model of the new apparatus in operation in a London laboratory. (Wide World Photos.)

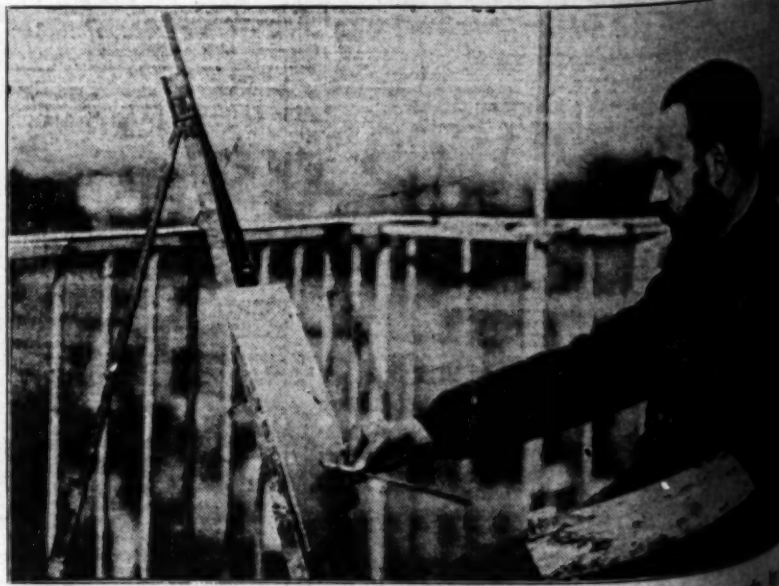

A Diving Cylinder capable of resisting water pressure at a depth of five miles will be employed by Dr. Hans Hartman of New York, in his search near Naples, Italy, for the lost city which legend states was engulfed by the ocean centuries before accurate historical records were kept. If the present experiment in the Mediterranean, for which everything is now in readiness, proves successful, Dr. Hartman will undertake to locate the lost continent of Atlantis. Dr. Hartman, who holds the deep-sea diving record as a result of a descent of 1500 feet off Gibraltar in 1911, is shown in the upper photo charting locations for his proposed operations. Photo at left shows cross section of the diving apparatus. (North American Newspaper Alliance and P. & A. Photos.)

The Hereditary Instincts of a Subject may be ascertained through the use of an apparatus installed in the psychopathic laboratory of the Chicago Municipal Court, it is asserted. Photo shows the apparatus in operation under the direction of a clerk in the laboratory. (P. & A. photo.)

An Important Advance in Photography is reported from the University of Iowa, where it is asserted sound has been successfully photographed by means of membrane and mirrors. In the above photo one of the university scientists is shown making a picture of his voice. (P. & A. photo.)

Weather Predictions Based on Paintings are being successfully made at the French Weather Bureau at Paris. An artist, M. Fleury, has been commissioned to make a daily record on canvas of cloud formations. These paintings, with accurately kept subsequent data, make the predictions possible. (P. & A. photo.)

CREATOR'S CITY OF GLORY DESCRIBED BY PASTOR

G. A. Briegleb of Westlake Presbyterian Church Gives Sermon Over KHJ

Dr. Briegleb spoke in part as follows:

...the magic of radio for a... of the KHJ audience for a canvas, Dr. G. A. Briegleb of the Westlake Presbyterian Church, Los Angeles, speaking yesterday, gave the picture of the City of Glory promised to the faithful.

Dr. Briegleb spoke in part as follows:

...the magic of radio for a... of the KHJ audience for a canvas, Dr. G. A. Briegleb of the Westlake Presbyterian Church, Los Angeles, speaking yesterday, gave the picture of the City of Glory promised to the faithful.

MAIL RIGHT DENIAL SOUGHT

Government Seeks to Stop Payments Continuing in Valhalla Park Fraud Deal

A hearing to determine whether or not the Osborne-Fitzpatrick Finance Company shall be entitled to further use of the mails will be held before Solicitor-General Horace J. Donnelly at Washington on the 16th inst., it was announced yesterday.

Postal Inspectors G. E. Webster and W. G. Means will leave Los Angeles today for New York and Washington to testify at the hearing.

In bringing the hearing the government seeks to stop all such payments.

Under oral instructions by Judge McCormick, the defendant company is bound to make restitution to investors who suffered through duplicate lot sales and closed contracts. It is expected by Federal officials that the defense will base its plea for continuance of operation upon the conviction of Osborne and Fitzpatrick is now on appeal to the Circuit Court of Appeals in San Francisco.

SELLS COURT ON CANDY STORY

Officers Arresting Auto Salesman Declare There Was Liquor on His Breath, But He Tells Judge Odor Came From Bon Bons and Escapes Penalty

"Have a piece of candy, Your Honor."

A peculiar conversation for a courtroom, but one that was heard when Charles N. Herod, an automobile salesman, appeared before Justice Ambrose.

County motorcycle officers told of arresting Herod after observing him driving in a peculiar manner on Santa Monica Boulevard. He would speed up and then stop suddenly, they said, and when they talked to him they smelled something very much like liquor on his breath. The same odor also stained the breaths of two good-looking young ladies with him, they said in testimony.

Herod told of taking two young lady prospects for a demonstration. He bought a box of candy and started his demonstration by showing how the car would start quickly on all eight cylinders and stop as quickly on all four brakes.

"But about that liquor odor, Your Honor, if you'll only taste this candy you can see that it gives off an odor almost like liquor."

And Herod produced the box.

Said the court: "Well, sir, either it's a good car or you're a good salesman. You've sold me. Sentence suspended."

I say this, because there are so many who talk sentimentally about the love of God. It is a wonderfully comforting thing to be able to say, 'I know that God loves me, and I have the proof of it.' Another thing I want to say: God loves all men. Not merely those who are repentant of their sins, but not only Christians; not only church members; but every man and woman and child in the world. Here are some of the proofs. The Bible says so, and the text of the Bible has stood the storms of criticism for more than 4000 years. In the second place, we have the law of universality.

Resort Owners Join Forces to Attract Trade

Purposing co-operative effort to attract tourist travel to California, more than 250 resort owners of the State will meet Wednesday in the offices of the Sacramento Chamber of Commerce, according to Charles G. Dunwoody, director of the conservation department of the California Development Association. He will outline the conservation program of the association and tell how the resort owners and chambers of commerce of the State can become active working units on this program.

Mrs. D. E. F. Easton of San Francisco, member of the conservation committee of the State organization, will speak on the recreational activities of the conservation department.

CHURCH TO HOLD FAIR

St. Patrick's Church, Thirty-fourth and Central avenues, will hold a fair for a week, beginning today, for the benefit of the church. A new program is promised each evening, adding to numerous attractions to be found.

South Park Baptist Church preached yesterday on "The Bible in Our Schools." He said in part:

"We advocate the Bible in the schools because it is the finest of all literature and contains the highest moral, the most splendid ideal, the most beautiful thought and the deepest truth. As a man thinketh so is he. Fill the minds of this generation with the message of the world's greatest teacher and we shall go to a great way in solving the problems of crime and lawlessness in future generations. The Bible speaks for itself. Give it a fair, personal and honest consideration and beneficial results will follow. Let the Bible speak for itself in the schools."

KEY TO HAPPINESS GIVEN BY RABBI

Dr. H. P. Magnus, rabbi of Temple Beth Shalom, preached Saturday on "When People are Most Happy."

Dr. H. P. Magnus, rabbi of Temple Beth Shalom, preached Saturday on "When People are Most Happy." He said in part:

"People are most happy when they have plenty to do and when they busy themselves in some kind of idealistic work. Too much concentration upon self is dangerous in many ways. It makes one lose all perspective and balance. Happy indeed, are those who live for an ideal, a hobby that is worth while and makes the world a better place to live in. The Jewish people in ages past made the Torah their hobby. They studied the law day and night. They improved their minds and hearts. Religion meant everything to them and every sacrifice made in the name of religion was cheerfully executed. Neither duties on the one hand, or persecution on the other could quench the flame of their faith and cause them to renounce it. Individual here and there may have deserted, but in the main, our fathers were loyal and true." Discussing "Man and the Universe."

BELIEVES PASTORS BEING PERSECUTED

Dr. Bruce Brown, pastor of the South Park Christian Church, preached yesterday on "The Words of Jesus."

Dr. Bruce Brown, pastor of the South Park Christian Church, preached yesterday on "The Words of Jesus." He spoke in part, as follows:

"Let every miracle be denied and the integrity of the Bible called in question, there remains one fact as tangible as Mt. Baldy, and that is that the gospel of Christ has an immortality and a power that cannot be explained on human grounds. In the beginning, with the whole world against it, it had not earthly power to defend it. It is now that God is working in every land and age. Its author prophesied, 'Heaven and earth shall pass away, but my words shall never pass away.' Twenty centuries have proved the truthfulness of these words that must have seemed, when uttered, the same of foolishness. Judging the future by the past we can believe that the day will come when this heaven-born message shall do for Africa and Asia what it has done for Europe and America that were once in savagery and superstition. The gospel has a message for every age. In the beginning it met gross ignorance and immorality. In the Middle Ages it faced tyranny and hypocrisy. In more recent times its battle has been against bigotry and sectarianism. Today the world is willing it pay its compliments if it can be kept closed. We are no longer burned for believing it, but we are sure searched for preaching it. What the world wants is a great, powerful Bible closed on the pulpit or pictured on the wall. The preacher today who will speak of hypocrites and favoritism and cant as Jesus did has a man's job on hand."

RABBI EXPLAINS SUCCOTH FEAST

"The Succoth Festival of Happiness" is the subject of an address given yesterday by Rabbi Mayer Winkler at the Congregation Sinai.

Dr. Winkler said in part:

"The feast of tabernacles is one of the three festivals of pilgrimage celebrated in biblical times when the Jewish people lived in Palestine. These festivals were primarily agricultural festivals. The Jewish farmer was summoned to appear thrice a year in Jerusalem, the religious and national center. At these solemn occasions he expressed his gratitude and dependence on God to whom he owed his well-being, and drew inspiration for a wholesome religious and national life. It was a festival of rejoicing for all Israel. The harmony of life is not to be attained in the far distance, it is rather attainable in our immediate surroundings, in our family life. Religion is the only unifying factor, the only instrument by which every human being is able to find happiness and satisfaction, but it must be a religion of every-day life."

RELIGION OF FUTURE DEFINED BY PASTOR

Rev. E. Burdette Backus of the First Unitarian Church preached yesterday on "A New Starting Point for Religion."

Rev. E. Burdette Backus of the First Unitarian Church preached yesterday on "A New Starting Point for Religion." He said in part:

"Religion in the past has consisted largely in illusions which man has cherished to soften the harshness of the real world. He has felt lonely and weak in the vast world of nature, so he has created gods to be his companions and help him triumph over the many dangers that beset his way. But we are now growing out of the childhood stage of make-believe into the manhood of facing the facts of the world as it is. Religion has now become a matter of inspiring men to use all their available resources of knowledge and power for the purpose of transforming the world as it is into the world as it ought to be. Man's life here and now is his supreme concern. Wars, poverty, ignorance are the problems it deals with. A full and satisfying life for every man is the salvation it would confer. The method that it uses is the freedom and experiment of science in place of the dogma and authority of traditional theology. It is the religion for which Bishop Brown is today condemned for heresy but which in the future is destined to become the chief source of power in establishing justice, wisdom, and good-will as the guides of humanity."

OFFERS PROOFS OF GOD'S LOVE TO MAN

"Evidence of God's Love for His Children" is the subject of a sermon preached yesterday by Rev. W. C. Issett at Amanda Chapel.

Mr. Issett said in part:

"The proof of God's love for men does not rest upon sentiment. That He loves us is as scientifically demonstrable as a theorem in geometry. Certain facts are given, and from these the conclusion follows inevitably."

BUY THE 4 SQUARE SERVICE

MAJESTIC Electric Heater

1. HEAT—When and where you want it.

2. BEAUTY—Rich, graceful design.

3. DURABILITY—Long life. Lasting satisfaction.

4. ECONOMY—Low operating cost.

Fully approved by the Underwriters' Laboratories

Four square quality—that's the reason why "Majestic is King of them all." It's not so hard to put any one of these qualities in a heater. The trick is to put them all in—and sell the heater at a price you can afford to pay, and that is what we have done with Majestic. Special long life heating element. Back cooled by dead air insulation. In three sizes.

Real Estate Classified Advertisements. The page is organized into several columns, each containing numerous small advertisements. The categories are indicated by bold headings at the top of each column: 'Houses', 'Trucks and Delivery Cars', 'Automobiles', 'Trucks and Delivery Cars', 'Houses', 'Trucks and Delivery Cars', 'Automobiles', 'Trucks and Delivery Cars', 'Houses', 'Trucks and Delivery Cars', 'Automobiles', 'Trucks and Delivery Cars'. Each advertisement typically includes a brief description of the property or vehicle, its location, and the contact information for the seller or agent. The text is dense and uses a variety of fonts and sizes to highlight different features and prices. The overall layout is a typical example of a classified advertisement page from a mid-20th-century newspaper.
